Subject index

A23187
acrosome reaction, induction, progesterone, sperm acrosome antigen-1 1897
acrosome reaction, sperm–oocyte fusion, sperm motility 1867
pentoxifylline, acrosome reaction, flow cytometry, CD46 antibody, Percoll 71
Abortion
abortus karyotype, crown-rump length, transvaginal ultrasound 366
chorionic sac, abortus karyotype, growth curves, IVF/GIFT 559
medical abortion, mifepristone, gemeprost, vacuum aspiration, efficacy 2167
multifetal pregnancy reduction, ovarian hyperstimulation syndrome, polycystic ovary syndrome 1190
multifetal reduction, counselling, ethics 1978
recurrent abortion, immunotherapy, randomized trials 1247
recurrent abortion, LH, hypersecretion, ovarian steroids 179
recurrent abortion, prognosis, lymphocytes, progesterone receptor 1546
recurrent abortion, uterine septum resection, two case reports 1519
recurrent miscarriage, antiphospholipid antibodies, aspirin, low-dose treatment 1359
recurrent miscarriage, chromosome abnormalities, antiphospholipid antibodies, polycystic ovary syndrome 1328
recurrent spontaneous abortion, histocompatibility antigens 1195
recurrent spontaneous abortion, leukocytospermia, cytokines, semen 1180
RU 486, endometrial maturation, implantation phase 2398
spontaneous abortion, alcohol consumption, risk 1950
spontaneous abortion, HCG, predictive value, IVF–ET, spontaneous conception 1550
ZK 98,734, efficacy, RU 486 57
Acetylcholine
uterine artery, relaxation, nitric oxide 387
Acrosome reaction
A23187, sperm–oocyte fusion, sperm motility 1867
ARIC test, assay reproducibility, sexual abstinence 2079
asthenozoospermia, pentoxifylline, 2-deoxyadenosine, hyperactivation 2038
capacitation, fertilization, contraception 842
characterization, frequency distribution, male infertility 1875
chisterin, monoclonal antibody staining, sperm morphology 1490
FITC-PNA, pentoxifylline, follicular fluid 77
inducibility, IVF, prognostic ability 1880
induction, progesterone, sperm acrosome antigen-1, A23187 1897
iron concentration, peritoneal fluid, endometriosis, infertility 1153
pentoxifylline, A23187, flow cytometry, CD46 antibody, Percoll 71
platelet activating factor, IVF, subzonal insemination, embryonic development, rabbit 94
platelet activating factor, sperm motility, sperm intracellular calcium, progesterone 471
sperm–zona interaction, IVF 1694
sperm–zona interactions, progesterone, male infertility 1322
sperm morphology, subzonal insemination, fertilization 1281
sperm morphology, zona-free oocytes, oolemma binding 673
sperm motility, male infertility, pregnancy prediction 1887
sperm pre-treatments, progesterone, follicular fluid, subzonal insemination 110
spermatozoa, pentoxifylline, progesterone, hyperactivation 2318
subzonal insemination, spermatozoa, selection, fertilization rates 128
Actinomycin D
ectopic pregnancy, management techniques, surgical treatment 547
gestational trophoblastic disease, IVF–ET EMACO treatment 2010
Adenosine
asthenozoospermia, dynein ATPase kinetics, sperm motility 1474
Adenylyl cyclase
gonadotrophins, ovulation induction, natural cycles, hamster 2247
Adhesions
ovary, surface epithelium injury, plasminogen activator, rabbit 497
peri-adnexal adhesions, lysis, IVF–ET, pregnancy rates 2339
Adrenocorticotrophin hormone
opioid antagonist, insulin, androgens, steroidogenesis, polycystic ovary syndrome 2242
Albumin
albumin columns, spermatozoa, sex preselection 1787
intravenous administration, severe ovarian hyperstimulation syndrome 2186
intravenous albumin treatment, ovarian hyperstimulation syndrome 753
Percoll, antisperm antibodies, intra-uterine insemination, chymotrypsin/galactose treatment 484
Alcohol consumption
spontaneous abortion, risk 1950
Allergic reactions
HMG, guinea-pig, mouse 1845
Amenorrhoea
hyperandrogenaemia, polycystic ovary syndrome, ovarian wedge resection 1022
secondary amenorrhoea, body weight, prolactin response, metoclopramide, thyrotrophin-releasing hormone 800
weight-related amenorrhoea, ovulation induction, cumulative conception rates 1563
Amino acids
amniotic fluid, coelomic fluid, first trimester 1175
Amniotic fluid
amino acids, first trimester 1175
protein concentrations, first trimester, coelomic fluid, yolk sac volume 161
relaxin, first trimester 1561
Ampulla
assessment methods, falloposcopy, salpingoscopy 1516
Anaphylaxis
HMG, guinea-pig, mouse 1845
Androgen receptor
progesterone receptor, oestrogen receptor, ovary, menstrual cycle, steroidogenesis 1589
Androgens
adrenocorticotrophin hormone, opioid antagonist, insulin, steroidogenesis, polycystic ovary syndrome 2242
male contraceptive methods, LHRH analogues, progestins 586
Andrology
diagnostic andrology, assisted reproductive techniques 1209
diagnostic andrology, male infertility, cystic fibrosis 1214
Androstenedione
histopathological changes, ultrasonography, polycystic ovary syndrome 2255
Aneuploidy
maternal age 1981
oocyte donation, postmenopausal women 1199
preimplantation embryos, IVF 709
Angiogenesis
endometrium, endothelial cell proliferation, immunohistochemistry 399
endometrium, levonorgestrel 1647
Angiotensin II
atrial natriuretic peptide, uterine artery, pre-eclampsia 1939
Anovulation
female Hispanics, dopamine D_2 receptor, polymerase chain reaction 1271
ovulation induction, polycystic ovary syndrome, hypogonadotrophic hypogonadism, weight-related amenorrhoea, cumulative conception rates 1563
Anterior pituitary hormones
pregnant mare's serum gonadotrophin, oocyte maturation *in vitro*, antral follicle development, macaques 2130
Anthropometry
response to ovulation induction, gonadotrophins, obesity 420
Anti-oestrogen
ICI 182,780, hypothalamic-pituitary-gonadal axis, endometrial proliferation 1991
Anti-ovarian antibodies
infertile women, gonadotrophins, low response, insulin-like growth factors 806
Anti-zona pelludica antibodies
follicular fluid, IVF, fertilization failure 1827
ovarian stimulation, low responders, IVF 643
Anticardiolipin antibodies
β_2-glycoprotein I, pregnancy outcome 1849

Antiphospholipid antibodies
aspirin, heparin, IVF–ET, pregnancy rates 2278
recurrent miscarriage, aspirin, low-dose treatment 1359
recurrent miscarriage 1328
Antiprogestin
onapristone, arrested follicular growth, hormonal profile 1442
Antisperm antibodies
chymotrypsin/galactose treatment, intra-uterine insemination, pregnancy rates, Percoll, albumin 484
immunobead test, auto-controlled study, IVF 1119
IVF, ovarian stimulation, low responders, anti-zona pelludica antibodies 643
oligozoospermia, testicular obstruction, orchidectomy, prednisolone 463
Argon laser
vaporization/perforation, polycystic ovary syndrome, laparoscopy 1038
ARIC test
acrosome reaction, assay reproducibility, sexual abstinence 2079
Ascorbic acid
IVF, embryo development 1717
Aspirin
antiphospholipid antibodies, IVF–ET, pregnancy rates 2278
low-dose aspirin, hormone replacement therapy, uterine perfusion, intra-uterine insemination 1954
low-dose treatment, antiphospholipid antibodies, recurrent miscarriage 1359
Assisted conception
prognosis, IVF failure 2287
superovulation, timed intercourse, pregnancy rates 67
Assisted hatching
Er:YAG laser, partial zona dissection, subzonal insemination 1723
Assisted reproductive techniques
diagnostic andrology 1209
donor insemination, lesbian women, child welfare, legislation, ethics 1969
filiation, ethics, legislation, British/French trends 1348
maternal age, community attitudes 167
oocytes, in-vitro growth 1585
posthumous reproduction, donor insemination, legislation, ethics 2182
Asthenozoospermia
adenosine, dynein ATPase kinetics, sperm motility 1474
co-culture, Vero cells, computer-assisted sperm analysis 1276
pentoxifylline, 2-deoxyadenosine, hyperactivation, acrosome reaction 2038
soluble IL-2 receptors, low sperm motility 653
ATP
semen, resazurin test, sperm parameters, male infertility 1688
Atrial natriuretic peptide
angiotensin II, uterine artery, pre-eclampsia 1939
Autoimmune disorders
HLA antigens, premature ovarian failure, thyroid disease 2006
Azoospermia
retrograde ejaculation, male infertility 381
vas deferens, sperm retrieval, intra-uterine insemination, live birth 875

Barth's syndrome
preimplantation diagnosis, polymerase chain reaction, FISH 912
Bilateral total salpingectomy
IVF–ET, heterotopic pregnancy, case report 1966
Birthweight
IVF, GIFT, singleton deliveries, primiparity 141
Bladder
bladder endometriosis, laparoscopic partial cystectomy, pregnancy, case report 730
Blastocentesis
preimplantation diagnosis, psychological evaluation, acceptability, β-thalassaemia 360
Blastocysts
co-culture, Vero cells, IVF–ET, indications for embryo transfer, pregnancy rates 2367
embryogenesis, *in vivo*/*in vitro*, timing of development, hamster 2123
inner cell mass, isolation, culture, human leukaemia inhibitory factor 2110
interferon-α, HCG 1522
preimplantation development, fibronectin, inner cell mass, mouse 894
Blepharophimosis
familial cases, ovarian dysfunction, case report 2034
Body weight
prolactin response, metoclopramide, thyrotrophin-releasing hormone, secondary amenorrhoea 800
Bone density
uterine fibroids (leiomyomata), add-back therapy, leuprolide acetate, cholesterol (HDL) 1618
Bone loss
menopause, hormone replacement therapy 1801
Bovine oviduct epithelial cells
co-culture, bovine embryos 1927
Bovine spongiform encephalopathy
Creutzfeld–Jakob disease, vertical transfer, prion disease, debate 1792
Breast
cancer, LHRH, agonists and antagonists 1364
cancer, tamoxifen, ovarian cysts, oestrogen, GnRH agonist 1427
Breast cancer
oral contraceptives 2263
Breast milk
dioxin pollution, endometriosis 1001
Buffalo rat liver cells
co-culture, bovine embryos 1927
Buserelin
follicle cyst formation 1983
GnRH agonist, IVF–ET, pregnancy rates, nafarelin 226
ovarian stimulation, long desensitization, GnRH agonist, LHRH 220
ovulation, clomiphene citrate, corpus luteum, pregnancy, gonadotrophin concentrations 41

CA 125
oocyte donation, first trimester, Turner's syndrome, radioimmunoassay 147
Caffeine
sperm motility stimulants 192
Calcium
oocyte activation, intracellular free calcium, intracytoplasmic sperm injection, confocal lower scanning microscopy 511
oocytes, intracellular oscillations, membrane hyperpolarizations, cytosolic sperm factor 2356
oocytes, maturation, intracellular [CA^{2+}], intracytoplasmic sperm injection 977
sperm intracellular calcium, platelet activating factor 471
cAMP
granulosa cells, transforming growth factor β1, steroidogenesis, pig 2118
Cancer
breast, tamoxifen, ovarian cysts, oestrogen, GnRH agonist 1427
breast cancer, oral contraceptives 2263
epithelial ovarian cancer, fertility drugs, risk, Italy 1673
ovary, borderline tumours, ovarian stimulation, gonadotrophins 2032
ovary, endometrium, breast, LHRH, agonists and antagonists 1364
Capacitation
sperm transport, acrosome reaction, fertilization, contraception 842
spermatozoa, pentoxifylline, progesterone, hyperactivation 2318
Cardiac activity
early embryonic heart rate, ultrasonography 2424
Catheterization
GIFT, injection dynamics 1670
Catheters
dummy embryo transfer, methylene blue 1257
CD46
membrane cofactor protein, sperm–oocyte interaction, IVF 907
Cell recycling
polymerase chain reaction, FISH, sex determination, β-haemoglobin gene sequence, preimplantation diagnosis 2150
Centchroman (anti-oestrogen)
contraception, legal/commercial aspects 578
Centrosomes
centrosome inheritance, male gametes, mitosis, parthenogenesis 1220
Cervical mucus
endometrial movements, ultrasonography 1013
spermatozoa, in-vitro penetration, Tru-Trax, post-coital test 2027
Cervical pregnancy
methotrexate, successful case report 1580
Cervical ripening
cytokines, interleukins, tumour necrosis factor α, guinea-pigs 2173
Cervix
utero-cervical inhibitory reflex, clinical significance, labour, menstruation 2220

Chemotaxis
endothelial cells, follicular fluid, LH surge 1226
Child welfare
donor insemination, lesbian women, legislation, ethics 1969
Children
IVF, psychological evaluation 1097
Chisterin
monoclonal antibody staining, spermatozoa, acrosome reaction, sperm morphology 1490
Chlamydia trachomatis
spermatozoa, ultrastructure, electron microscopy 754
Chlorinated hydrocarbons
PCB, DDT, γ-HCH, tissue accumulation, ovulation, rabbit 772
PCB, DDT, fertility, embryonic development, rabbit 1920
'Chocolate' cysts
endometriosis, peritoneal lesions, pelvic lesions 770
Cholesterol (HDL)
GnRH agonist, uterine fibroids (leiomyomata), add-back therapy, bone density 1618
Cholic acid
vaginal sponge, Protectaid™, contraceptives, spermicides, sperm ultrastructure 1999
Cholinesterase
human butyrylcholinesterase cDNA, testicular gene amplification, polymerase chain reaction, transgenic mice 284
Chorio-decidual cells
IL-8, progesterone, menstruation, parturition 253
Chorionic gonadotrophin
peri-implantation embryos, GnRH, immunocytochemistry, rhesus monkey 1300
Chorionic sac
sac diameter, abortus karyotype, growth curves, IVF/GIFT 559
Chorionic villus sampling
selective fetal reduction, GIFT 746
Chromosomes
abortus karyotype, chorionic sac, growth curves, IVF/GIFT 559
aneuploidy, maternal age 1981
aneuploidy, oocyte donation, postmenopausal women 1199
chromosomal abnormalities, oocytes, IVF 343
chromosomal abnormalities, preimplantation embryos (grade IV), IVF 293
chromosomal disorders, trisomy, polar body analysis, preimplantation diagnosis 181
chromosome abnormalities, recurrent miscarriage, antiphospholipid antibodies, polycystic ovary syndrome 1328
chromosome evaluation, aneuploidy, preimplantation embryos, IVF 709
fragile X syndrome, prenatal diagnosis, FMR-1 gene methylation 1471
male gametes, mitosis, centrosome inheritance, parthenogenesis 1220
male infertility, diagnostic andrology, cystic fibrosis, vas deferens 1214
oocytes, cryopreservation, karyotype evaluation 684
polar body analysis, trisomy, preconception diagnosis, preimplantation diagnosis 1208
sperm chromosome complements, reciprocal translocation 1512
spermatozoa, sex preselection, FISH, Percoll 1265
spermatozoa, sex preselection, flow cytometry, safety 757, 758
X and Y chromosome detection, preimplantation diagnosis, polymerase chain reaction 716
X and Y determination, fluorescence in-situ hybridization, preimplantation diagnosis, interphase nuclei preparation, mouse 533
X,Y chromosomes, sex preselection, ethics 569
X,Y,18, mosaicism, polyploidy, triploidy, FISH, embryo morphology 506
Chymotrypsin
chymotrypsin/galactose treatment, antisperm antibodies, intra-uterine insemination, pregnancy rates 484
Cigarettes
smoking, maternal serum, placental xenobiotic enzymes 1017
Clomiphene citrate
ovarian stimulation, cryopreservation, donor insemination, HMG 661
ovarian stimulation, late low-dose pure FSH, unexplained infertility 1863
ovulation, buserelin, pregnancy, gonadotrophin concentrations 41
ovulation induction, HMG, frozen/thawed ova, pregnancy rates 1556
Clonidine test
ovulation induction, growth hormone, co-treatment, conception rates 209
Co-culture
blastocysts, Vero cells, IVF–ET, indications for embryo transfer, pregnancy rates 2367
blastocysts, Vero cells, pregnancy rates 1131
bovine embryos, bovine oviduct epithelial cells, buffalo rat liver cells, Madin Darby bovine kidney cells, Vero cells 1927
bovine oviduct epithelial cells, embryos, assisted hatching, zona drilling 1528
embryos, peritoneal macrophages, IVF, 2-cell block, mouse 692
oocytes, cumulus oophorus, decreased fragmentation 1727
Vero cells, asthenozoospermia, computer-assisted sperm analysis 1276
Coelomic fluid
amino acids, first trimester 1175
protein concentrations, first trimester, amniotic fluid, yolk sac volume 161
relaxin, first trimester 1561
Collagen
type VII collagen, antigenic epitope, sperm tail fibrous sheath, post-translational modification 1452
Complement component 3
lymphocytes, endometrium, immunohistochemistry 1652
Computer-assisted semen analysis
Hamilton–Thorn, sperm motility 310
Computer-assisted sperm analysis
Hamilton–Thorn motility analyser, American/European versions, sperm hyperactivation 456
Hamilton–Thorn motility analyser, semen analysis, prospective study, pregnancy rates 2324
platelet activating factor, sperm motility, acrosome reaction, sperm intracellular calcium, progesterone 471
sperm motility, sperm–oocyte fusion, acrosome reaction, A23187 1867
sperm motility parameters, peritoneal fluid, endometriosis 2418
Conception
seasonality, ectopic pregnancy 1968
Confocal lower scanning microscopy
intracytoplasmic sperm injection, oocyte activation, intracellular free calcium 511
Congenital malformations
intracytoplasmic sperm injection, subzonal insemination, children, follow up 1765
Contraception
anti-HCG vaccination 267
capacitation, sperm transport, acrosome reaction, cumulus oophorus, fertilization 842
implantation, interception, endometrium, uterus 985
levonorgestrel, effectiveness, side-effects, review 1818
levonorgestrel, endometrium, angiogenesis 1647
male contraception, physiological bases, testes, epididymis 1081
male contraceptive methods, review, androgens, LHRH analogues, progestins, LHRH 586
prevalence, development, trends, population growth 445
review of methods, legal/commercial aspects, Centchroman (anti-oestrogen), anti-HCG vaccines, anti-GnRH vaccine, oFSH vaccine 578
steroid antagonists, RU 486, RU 38486, progesterone, receptor-associated proteins 437
voluntary organizations, research and development 1088
Contraceptives
contraceptive vaccines, spermatozoa, zona pellucida 828
melatonin, secretion, gonadotrophins, pregnancy 49
oral contraceptives, breast cancer 2263
research and development, role of industry, economics 376
spermicides, cholic acid, vaginal sponge, Protectaid™, sperm ultrastructure 1999
Coronary heart disease
risk, pre-menopausal women, obesity, hypertestosteronaemia, dylipidaemia 610
Corpus luteum
cytological characterization, luteal phase, steroidogenesis, HCG 591
granulosa cells, luteal phase, growth hormone receptor, immunohistochemistry 2259
ovulation, buserelin, clomiphene citrate, gonadotrophin concentrations 41
Corrosion casting
vascular architecture, oviduct, human fetus, scanning electron microscopy 1958
Cortical granule reaction
oocytes, germinal vesicle stage, IVF, pronuclear formation, developmental potential 697
Corticosteroids
immunosuppression, IVF–ET, pregnancy rates 1832
prednisolone, low-dose cyclic treatment, sperm-bound antibody levels,

flow cytometry 889
Cortisol
follicular fluid, IVF–ET, pregnancy rates 1944
Counselling
multifetal reduction, ethics 1978
Creutzfeld–Jakob disease
bovine spongiform encephalopathy, prion disease, vertical transfer, debate 1792
Cryopreservation
donor insemination, intra-uterine insemination, intra cervical insemination, clomiphene citrate, HMG 661
embryos, birth characteristics, perinatal mortality 543
embryos, IVF/GIFT cycles, large series 103
frozen/thawed ova, ovulation induction, HMG, clomiphene citrate, pregnancy rates 1556
normal cycles, frozen embryos, GnRH agonist, IVF–ET, placental protein 14 2429
oocytes, germinal vesicle breakdown, mouse 1738
oocytes, IVF, embryo development, dimethylsulphoxide, mouse 130
oophorectomy, ovarian autografts, fertility, sheep 597
preimplantation embryos, metabolic functions, mouse 122
propanediol, oocytes, fertilization rates, karyotype evaluation 684
ultrarapid freezing, embryos, developmental stage, equilibration, mouse 100
Cumulus–corona complex
implantation, prognosis, IVF–ET, pregnancy rate 1308
Cumulus oophorus
co-culture, oocytes, decreased fragmentation 1727
fertilization, contraception 842
Cyclic AMP
follicles, growth rates *in vitro*, FSH, relaxin, hypoxanthine, mouse 1003
Cyclophosphamide
gestational trophoblastic disease, IVF–ET, EMACO treatment 2010
Cystic fibrosis
diagnostic andrology 1214
epididymal sperm aspiration, vas deferens, congenital absence, vasectomy 1710
preimplantation diagnosis, polymerase chain reaction, FISH 912
preimplantation diagnosis, polymerase chain reaction 1676
Cytochromes
steroidogenesis, ovary, menstrual cycle, immunohistochemistry 1589
Cytokines
epidermal growth factor, transforming growth factor, fibroblast growth factors, vascular endothelial growth factor, endometrium 936
granulocyte–macrophage colony stimulating factor, decidua, first trimester, lymphocytes 1660
hypothalamic–pituitary–ovarian–endometrial axis, systemic effects, body temperature, gonadal steroid hormones 947
IL-1, endometrium, epithelial cells, placental protein 14 1339
IL-8, endometrium, perivascular location 1406
interleukins, tumour necrosis factor α, cervical ripening, guinea-pigs 2173
leukocytospermia, semen, recurrent spontaneous abortion 1180
Cytomegalovirus
immunoglobulin G, screening test, donor insemination 2076

Danazol
side-effects, endometriosis, acute pancreatitis 1163
DDT
chlorinated hydrocarbons, fertility, embryonic development, rabbit 1920
Decapeptyl
GnRH agonist, polycystic ovary syndrome 1048
Decidua
first trimester, lymphocytes, granulocyte–macrophage colony stimulating factor 1660
first trimester, lymphocytes, transforming growth factor β_{-2} 2270
Decidualization
decidual secretory proteins, stromal cells, ultrastructure, progestin, relaxin 259
2-deoxyadenosine
asthenozoospermia, pentoxifylline, hyperactivation, acrosome reaction 2038
sperm motility stimulants 192
sperm preparation, intracytoplasmic sperm injection 1127
Diabetes mellitus
preimplantation development, metabolic intermediates, hyperketonaemia, mouse 113
Diagnostic andrology
assisted reproductive techniques 1209
male infertility, vas deferens, cystic fibrosis 1214
Diethylstilbestrol
follicular development, RU 486, rat 24
Dimethylsulphoxide
cryopreservation, oocytes, embryo development, mouse 130
ultrarapid freezing, embryos, mouse 100
Dioxin pollution
breast milk, endometriosis 1001
DNA fingerprinting
hydatidiform mole, coexistent fetus 1770
DNA synthesis
granulosa–luteal cells, follicular fluid, vasoactive intestinal polypeptide, peptide histidine methionine 1053
Donor insemination
attitudes of parents of young children, donor recruitment 1355
cryopreservation, intra-uterine insemination, intra cervical insemination, clomiphene citrate, HMG 661
cryopreserved semen dose, conception rates 330
cytomegalovirus, immunoglobulin G, screening test 2076
emotional adjustment of couples, outcome 176
ethics, legislation, British/French trends 1348
GIFT, pregnancy rates 859
lesbian women, child welfare, legislation, ethics 1969
posthumous reproduction, legislation, ethics 2182
psychological evaluation, personality characteristics, male/female comparison 172
recruitment, supply, screening, UK legislation 882
spermatozoa, hyperactivation, pentoxifylline, pregnancy rates 1684
spontaneous cycles, prognostic indicators 1852
timing, transvaginal ultrasound, urinary LH 1859
Dopamine D_2 receptor
anovulation, female Hispanics, polymerase chain reaction 1271
Doppler
colour Doppler, complicated early pregnancy evaluation, uterine artery 2432
colour, hysterosalpingosonography, tubal patency 64
Duchenne's muscular dystrophy
preimplantation diagnosis, polymerase chain reaction, FISH 912
Dylipidaemia
obesity, hypertestosteronaemia, insulin, pre-menopausal women, coronary heart disease 610
Dyspermia
glutathione, lipoperoxidation, reactive oxygen species, sperm membrane 2044

Earle's balanced salt solution
Ménézo B2 medium, IVF, comparison of culture media, fertilization rates 1915
Eastern Europe
Szeged Declaration, reproductive health, research and service needs 750
Ectopic pregnancy
cervical pregnancy, methotrexate, successful case report 1580
HCG, predictive value, IVF–ET, spontaneous conception 1550
heterotopic pregnancy, IVF–ET, bilateral total salpingectomy, case report 1966
incidence, seasonal variation, French register 742
interstitial pregnancy, methotrexate, unsuccessful case report 1576
management techniques, surgical treatment 547
relocation from tube to uterus 1584
seasonality, conception 1968
subsequent reproductive prognosis 1333
trophoblastic activity, prostaglandin $F_{2\alpha}$, HCG, progesterone, embryos 1170
Ejaculation
retrograde ejaculation, azoospermia, male infertility 381
retrograde ejaculation, intracytoplasmic sperm injection, pregnancy 1293
Electroporation
sperm preparation, intracytoplasmic sperm injection 1127
EMACO treatment
gestational trophoblastic disease, IVF–ET 2010
Embryo transfer
catheters, methylene blue 1257
Embryos
accelerated cleavage, FISH 1733
blastocysts, co-culture, Vero cells, pregnancy rates 1131

blastocyst, fibronectin, inner cell mass, mouse 894
blastocysts, inner cell mass, isolation, culture, human leukaemia inhibitory factor 2110
blastocysts, interferon-α, HCG 1522
blastomeres, preimplantation diagnosis, sex determination, polymerase chain reaction 716
bovine embryos, co-culture 1927
co-culture, bovine oviduct epithelial cells, assisted hatching, zona drilling 1528
co-culture, cumulus oophorus, decreased fragmentation 1727
co-culture, peritoneal macrophages, IVF, 2-cell block, mouse 692
contraception, anti-HCG vaccination 267
crown-rump length, pregnancy outcome, abortus karyotype 366
cryopreservation, birth characteristics, perinatal mortality 543
cryopreservation, IVF/GIFT cycles, large series 103
development *in vitro*, hexokinase, ovulation induction, actinomycin D, mouse 347
early embryonic heart rate, ultrasonography 2424
embryo development, IVF, ascorbic acid 1717
embryo development, oocytes, cryopreservation, mouse 130
embryo morphology, IVF, FISH, chromosomes, X,Y,18 506
embryo morphology, pyruvate uptake, natural cycle IVF, implantation 2362
embryo transfer, implantation, pregnancy, oestrogen, luteal phase, rhesus monkey 629
embryogenesis, *in vivo*/*in vitro*, timing of development, hamster 2123
embryonic development, chlorinated hydrocarbons, rabbit 1920
embryonic development, parthenogenesis, pentoxifylline, mouse 1903
embryos for research, in-vitro culture 969
genetic disease, preimplantation diagnosis, chorionic villus sampling, selective fetal reduction, GIFT 746
gestational trophoblastic disease, IVF–ET, methotrexate, EMACO treatment 2010
human fetus, oviduct, vascular architecture, corrosion casting, scanning electron microscopy 1958
implantation, contraception, interception 985
IVF–ET, number of embryos, multifetal pregnancies, complications 184
oocytes, pentoxifylline, sperm preparation, phosphodiesterase, mouse 556
parathyroid hormone related protein, cellular expression, trophoblast, immunohistochemistry 149
peri-implantation embryos, chorionic gonadotrophin, GnRH, immunocytochemistry, rhesus monkey 1300
preimplantation development, diabetes mellitus, hyperketonaemia, metabolic intermediates, mouse 113
preimplantation diagnosis, fluorescence in-situ hybridization, interphase nuclei preparation, mouse 533
preimplantation diagnosis, sex determination, fluorescent in-situ hybridization 721
preimplantation embryos, chromosome evaluation, aneuploidy, IVF 709
preimplantation embryos, HCG secretion, cleavage rate, morphological assessment 1909
preimplantation embryos, sexual differentiation, growth rates 1730
single-cell biopsy, histology of offspring, mouse 1146
trophoblastic activity, ectopic pregnancy, prostaglandin $F_{2\alpha}$ 1170
ultrarapid freezing, developmental stage, equilibration, mouse 100

Endometriosis
bladder endometriosis, laparoscopic partial cystectomy, pregnancy, case report 730
danazol, side-effects, acute pancreatitis 1163
description, classification, nature of disease 2202
different sites, oestrogen receptor, progesterone receptor, immunohistochemistry 1752
dioxin pollution, breast milk 1001
female infertility, genital tract, radionuclide hysterosalpingography 1192
infected ovarian cysts, oocyte aspiration 1759
IVF, oocyte donation, treatment outcome 725
LHRH antagonists, IVF–ET, GIFT, polycystic ovary syndrome, uterine fibrosis 767
ovarian cysts, classification, endoscopy 2213
peritoneal fluid, iron concentration, acrosome reaction, infertility 1153
peritoneal fluid, sperm motility parameters, computer-assisted sperm analysis 2418
peritoneal lesions, 'chocolate' cysts, pelvic lesions 770
prevalence, anatomical distribution, female infertility, Italian multicentre study 1158
steroid 'add-back' paradigms, GnRH agonist, therapeutic uses, side-effects 1380

Endometrium
cancer, LHRH, agonists and antagonists 1364
chorio-decidual cells, IL-8, progesterone, menstruation, parturition 253
complement component 3, lymphocytes, immunohistochemistry 1652
cytokines, epidermal growth factor, transforming growth factor, fibroblast growth factors, vascular endothelial growth factor 936
decidualization *in vitro*, tumour necrosis factor α, prolactin, interleukins 2411
endometrial gland, ultrastructure, menstrual cycle, menopause 2234
endometrial maturation, implantation phase, RU 486 2398
endometrial movements, ultrasonography, cervical mucus 1013
endometrial proliferation, anti-oestrogen, ICI 182,780 1991
endometrial thickness, transvaginal ultrasound, implantation prediction, pregnancy outcome, oocyte donation 363
endothelial cell proliferation, angiogenesis, immunohistochemistry 399
endothelial cells, proliferation, levonorgestrel 1647
epithelial cells, IL-1, placental protein 14 1339
epithelial cells, retinoid binding proteins, retinoic acid receptors 1410
epithelial differentiation, keratan sulphate, secretion, LH peak 926
female infertility, heat shock protein 1253
implantation, contraception, interception 985
leukocytes, morphometry, immunohistology, unexplained infertility 646
maturation, luteal support, GnRH agonist, HMG, ultrastructure 32
oestrogen receptors, progesterone receptors, ovulation induction, GIFT, IVF 2405
perivascular location, IL-8 1406
retarded endometrium, placental protein 14, unexplained infertility, saliva progesterone 394
retarded endometrium, treatment comparison, artificial cycle, progesterone supplementation, luteal phase 409
retinoic acid receptors, retinoid X receptors, oestrogen, progesterone 229
sperm-binding lectin, sialic-acid binding protein, purification, characterization 1497
steroid receptors, growth factor receptors, spontaneous cycles, ovulation induction 200
stromal cells, decidualization, progestin, relaxin, ultrastructure 259
uterine endocrinology, pregnancy, IGFBP-1, placental protein 14 917

Endothelial cells
angiogenesis, Graafian follicle, immunohistochemistry 1401
chemotaxis, follicular fluid, LH surge 1226
proliferation, endometrium, levonorgestrel 1647

Epidermal growth factor
cytokines, endometrium 936
follicular fluid, oocytes, IVF 902

Epididymal sperm aspiration
percutaneous/microscopic aspiration, GIFT, intracytoplasmic sperm injection 2058
vas deferens, congenital absence, cystic fibrosis, IVF 1710
vas deferens, congenital absence, intracytoplasmic sperm injection 1705

Epididymis
male contraception, physiological bases, testes 1081
sperm maturation/storage/transport, scrotal temperature 2187

Er:YAG laser
assisted hatching, partial zona dissection, subzonal insemination 1723
photoablation, zona pellucida, fertilization rates, live births 1891

ESHRE multicentre trial
male infertility, intra-uterine insemination, intra-peritoneal insemination, GIFT 1112

Ethics
filiation, assisted reproductive techniques, legislation, British/French trends 1348

Fallopian tube
bilateral salpingectomy, ovarian stimulation, case–control study, IVF–ET 624
ectopic pregnancy, relocation from tube to uterus 1584
epithelium, endometrial gland, ultrastructure, menstrual cycle, menopause 2234
epithelium, ultrastructure, menstrual cycle, menopause 2224
falloposcopy, salpingoscopy, assessment methods, ampulla 1516
GIFT, catheterization, injection dynamics 1670
human fetus, vascular architecture, corrosion casting, scanning electron microscopy 1958
hydrosalpinx, formation, correction, regeneration, rabbit 2090
hydrosalpinx, IVF–ET, pregnancy rates 861
hysterosalpingosonography, tubal patency 64
interstitial pregnancy, methotrexate, unsuccessful case report 1576

laparoscopy, salpingostomy, tuboplasty, pregnancy rates 334
oestrogen receptor, progesterone receptor, menstrual cycle, menopause, immunohistochemistry 1027
peri-adnexal adhesions, lysis, IVF–ET, pregnancy rates 2339
proximal tubal occlusion, wire guide cannulation, pregnancy rates 1109
salpingectomy, laparoscopy, pregnancy rates 83
tubal surgery, ectopic pregnancy, implantation sites 90
unwinding of adnexal torsion, laparoscopy, ovarian hyperstimulation syndrome 2350

Falloposcopy
proximal tubal occlusion, unilateral, bilateral 340

Female infertility
endometriosis, radionuclide hysterosalpingography 1192

Fertility
chlorinated hydrocarbons, rabbit 1920
fertility regulation, implantation, contraception, interception 985
male fertility, diagnosis, sperm ultramorphology 2069
oophorectomy, cryopreservation, ovarian autografts, sheep 597
unexplained infertility, oocyte maturation *in vitro*, mice 1136

Fertility drugs
epithelial ovarian cancer, risk, Italy 1673

Fertilization
capacitation, sperm transport, acrosome reaction, cumulus oophorus, contraception 842
detection of fertilization, accelerated cleavage, FISH 1733
embryo development, IVF, ascorbic acid 1717
fertilization failure, intracytoplasmic sperm injection, ultrastructure 2374
fertilization rates, failed IVF, subzonal insemination, reinsemination 669
fertilization rates, karyotype evaluation, oocytes, cryopreservation, propanediol 684
oocytes, intracellular oscillations, membrane hyperpolarizations, cytosolic sperm factor 2356
oocytes, maturation, intracellular [CA^{2+}], intracytoplasmic sperm injection 977
oocytes, oviductal exposure, morphology, sperm penetration, ovarian bursa 519
oocytes, primary follicle culture system, mouse 527
sperm–zona interaction, acrosome reaction 1694
sperm penetration assay, histocompatibility linked antigens, gene sequences 279
subzonal insemination, acrosome reaction, sperm morphology 1281

Fibroblast growth factors
cytokines, endometrium 936

Fibronectin
blastocyst, inner cell mass, mouse 894

Filiation
assisted reproductive techniques, ethics, legislation, British/French trends 1348

FISH
embryos, accelerated cleavage, detection of fertilization 1733
Percoll, sperm preparation, sex preselection 1265
polymerase chain reaction, cell recycling, sex determination, β-haemoglobin gene sequence, preimplantation diagnosis 2150
polymerase chain reaction, sex determination, preimplantation diagnosis, mouse 2145

Flow cytometry
CD46 antibody, acrosome reaction, Percoll 71
sperm-bound antibody levels, prednisolone, low-dose cyclic treatment 889
spermatozoa, sex preselection, UV light, DNA binding agent, safety 757, 758

Fluorescent in-situ hybridization
modified spreading method, directly labelled probes, sex determination, preimplantation diagnosis 721
preimplantation diagnosis, interphase nuclei preparation, Tween 20, mouse 533

Follicles
antral follicle development, pregnant mare's serum gonadotrophin, anterior pituitary hormones, oocyte maturation *in vitro*, macaques 2130
arrested follicular growth, onapristone, antiprogestin, hormonal profile 1442
early follicular phase, IVF, progesterone, GnRH agonist, flare-up effect 235
follicle culture, oocytes, in-vitro growth, assisted reproductive techniques 1585
follicle cyst formation, buserelin, triptorelin, leuprolide acetate 1983
follicle growth, meiotic progression, *in vitro*/*in vivo*, mouse 352
follicle maturation, in-vitro culture 969
follicular activity, IGFBP-1, IVF–ET, down-regulation 1417
follicular development, FSH, LH, ovulation 188
follicular development, GnRH agonist, polycystic ovary syndrome, IVF–ET 1596
follicular development, progesterone, RU 486, rat 24
follicular growth, gonadotrophins 815
follicular growth, low dose LH, HMG, ovulation induction, hypogonadotrophic hypogonadism 431
follicular maturation, somatostatin, progesterone, IVF 1448
follicular rupture prognosis, ultrasonography, ovarian synchrony factor 1250
growth rates *in vitro*, FSH, relaxin, cyclic AMP, hypoxanthine, mouse 1003
multiple follicular development, herbal medicine, *Vitex agnus castus*, IVF 1469
multiple follicular development, pure urinary FSH (Metrodin), steroidogenesis, multicentre phase III study 424
oophorectomy, cryopreservation, ovarian autografts, fertility, sheep 597
pre-antral follicle development, glycolysis, steroidogenesis, gonadotrophins, mouse 617
pre-antral follicles, glycolysis, malonate, TCA cycle 604
primary follicle culture system, oocytes, fertilization, mouse 527

Follicular fluid
acrosome reaction, FITC-PNA, pentoxifylline 77
anti-zona-pellucida antibodies, IVF, fertilization failure 1827
cortisol, IVF–ET, pregnancy rates 1944
endothelial cells, chemotaxis, LH surge 1226
granulosa–lutein cells, prostaglandin $F_{2\alpha}$, IGFBP-3 1643
IGF-I, growth hormone, epidermal growth factor, oestradiol, oocytes, IVF 902
IGFBP-3, ovarian stimulation, growth hormone 1421
IL-1β, PGE_2, $PGF_{2\alpha}$ 9
peptide, characterization, sperm motion stimulation 1505
peritoneal fluid, exogenous progesterone, sperm motility *in vitro* 303
prolactin, gonadotrophins, steroid hormones, GnRH agonist, IVF 1803
somatostatin, follicular maturation, progesterone, IVF 1448
sperm pre-treatments, acrosome reaction, subzonal insemination, progesterone 110
vasoactive intestinal polypeptide, peptide histidine methionine, granulosa–luteal cells, DNA synthesis, steroidogenesis 1053

Fragile X syndrome
prenatal diagnosis, FMR-1 gene methylation 1471

FSH
elevated basal FSH, ovarian ageing/failure, infertile women 245
follicles, growth rates *in vitro*, relaxin, cyclic AMP, hypoxanthine, mouse 1003
follicular development, LH, ovulation 188
FSH treatment, LH response, gonadotrophin surge-inhibiting factor, GnRH 1600
granulosa–lutein cells, oestradiol, control of secretion, IGF-I 19
late low-dose pure FSH, clomiphene citrate, unexplained infertility 1863
LH, secretion control mechanism, pre-pubertal children, post-menopausal women 1807
LH:FSH ratio, histopathological changes, ultrasonography, polycystic ovary syndrome 2255
LHRH, LH, GnSAF, post-menopausal women 241
low-dose step-up treatment, ovulation, polycystic ovary syndrome 1612
ovarian reserve, screening test, ovarian stimulation, poor responders 1607
ovarian stimulation, late low-dose pure FSH, clomiphene citrate 1863
pure urinary FSH (Metrodin), steroidogenesis, oestradiol, multiple follicular development, multicentre phase III study 424
recombinant FSH, gonadotrophin-deficiency, ovarian response, Kallman's syndrome, inhibin 1237
recombinant FSH, Org 32489, IVF–ET, clinical efficacy 1064
recombinant FSH, ovulation induction, pregnancy, birth, polycystic ovary syndrome 55
subcutaneous pure FSH, ovarian stimulation, IVF–ET, outcome 1430
urinary, purity of commercial preparations 2291

FSH vaccine
FSH vaccine, contraception 578

Fucose-containing epitope
zona pellucida, sperm–zona interaction, Lewis blood groups, human, pig, cow 1532

Fusan
t-amino caproic acid, semen, liquefaction, proteinase inhibitors 664

Galactose
chymotrypsin/galactose treatment, antisperm antibodies, intra-uterine insemination, pregnancy rates 484
Gamete immunology
infertility, contraceptive vaccines 828
Germ cells
testes, Sertoli cells, paracrine control, lactate, 17β-oestradiol, transferrin inhibin
Germinal vesicle
follicle growth, meiotic progression, *in vitro*/*in vivo*, mouse 352
Germinal vesicle breakdown
oocytes, cryopreservation, mouse 1738
Gestational trophoblastic disease
IVF–ET, methotrexate, EMACO treatment 2010
GIFT
catheterization, injection dynamics 1670
donor insemination, pregnancy rates 859
epididymal sperm aspiration, percutaneous/microscopic aspiration 2058
IVF, singleton deliveries, birthweight, primiparity 141
LHRH antagonists, IVF–ET, polycystic ovary syndrome, endometriosis, uterine fibrosis 767
male infertility, ESHRE multicentre trial 1112
preimplantation diagnosis, chorionic villus sampling, selective fetal reduction, genetic disease 746
prognosis, IVF failure 2287
transvaginal catheterization techniques, pregnancy rates 1466
Glutathione
dyspermia, lipoperoxidation, reactive oxygen species, sperm membrane 2044
β_2-glycoprotein I
anticardiolipin antibodies, pregnancy outcome 1849
Glycolysis
pre-antral follicle development, steroidogenesis, gonadotrophins, mouse 617
pre-antral follicles, malonate, TCA cycle 604
GnRH
anti-GnRH vaccine, contraception 578
gonadotrophin surge-attenuating factor, LH secretion 1437
gonadotrophin surge-inhibiting factor, FSH treatment, LH 1600
peri-implantation embryos, chorionic gonadotrophin, immunocytochemistry, rhesus monkey 1300
GnRH agonist
breast cancer, tamoxifen 1427
buserelin, nafarelin, IVF–ET, pregnancy rates 226
decapeptyl, polycystic ovary syndrome 1048
flare-up effect, early follicular phase, progesterone, IVF 235
follicular development, polycystic ovary syndrome, IVF–ET 1596
HMG, IVF, prolactin, gonadotrophins, steroid hormones 1803
inadvertent administration, early pregnancy, outcome, IVF 1243
IVF–ET, first trimester, placental protein 14, normal cycles 2429
IVF–ET, ovarian stimulation, subcutaneous pure FSH, outcome 1430
leuprolide acetate, uterine fibroids (leiomyomata), add-back therapy, cholesterol (HDL), bone density 1618
LH surge, ovarian hyperstimulation syndrome 417
long desensitization, ovarian stimulation, buserelin 220
luteal support, endometrium, maturation, HMG 32
steroid 'add-back' paradigms, therapeutic uses, side-effects 1380
unexplained infertility, HMG, intra-uterine insemination, prospective study 1043
unicornuate uterus, transvaginal ultrasound, laparoscopy 1297
Zoladex, ovarian suppression, premenstrual tension, treatment 1058
GnRH analogues
follicle cyst formation, buserelin, triptorelin, leuprolide acetate 1983
HMG, ovulation induction, ultrasound-only monitoring 1631
oocyte donation, implantation rates 1761
GnRH antagonist
Cetrorelix, LH surge suppression, ovulation induction 788
Gonadotrophin surge-attenuating inhibiting factor
GnRH, FSH treatment, LH 1600
GnRH, LH secretion 1437
Gonadotrophins
amenorrhoea, hyperandrogenaemia, polycystic ovary syndrome, ovarian wedge resection 1022
GnSAF, FSH, LHRH, LH, post-menopausal women 241
gonadotrophin-deficiency, recombinant FSH, ovarian response, Kallman's syndrome, inhibin 1237
infertile women, low response, anti-ovarian antibodies, insulin-like growth factors, Doppler ultrasound 806
melatonin, secretion, contraceptives, pregnancy 49
ovarian stimulation, ovary, borderline tumours, IVF 2032
ovary, follicular growth, ovulation 815
ovulation induction, natural cycles, adenylyl cyclase, hamster 2247
pre-antral follicle development, glycolysis, steroidogenesis, mouse 617
response to ovulation induction, anthropometry, obesity 420
serum, follicular fluid, GnRH agonist, IVF 1803
subcutaneous/intramuscular administration, ovarian stimulation, GnRH analogue, IVF–ET 1070
urinary, purity of commercial preparations, FSH, HMG 2291
Graafian follicle
endothelial cells, angiogenesis, immunohistochemistry 1401
Granulocyte–macrophage colony stimulating factor
decidua, first trimester, lymphocytes 1660
Granulosa–luteal cells
DNA synthesis, steroidogenesis, follicular fluid, vasoactive intestinal polypeptide, peptide histidine methionine 1053
oestradiol, control of secretion, FSH, IGF-I 19
prostaglandin $F_{2\alpha}$, IGFBP-3, follicular fluid 1643
Granulosa cells
growth hormone receptor, immunohistochemistry, corpus luteum, luteal phase 2259
transforming growth factor β1, autocrine/paracrine function, steroidogenesis, cAMP, pig 2118
Growth factor receptors
endometrium, spontaneous cycles, ovulation induction 200
Growth hormone
co-treatment, ovulation induction, conception rates, clonidine test 209
follicular fluid, oocytes, IVF 902
Norditropin, ovarian stimulation, IVF, poor responders 13
Oliver–Mcfarlane syndrome, ovarian stimulation, female infertility 1997
ovarian stimulation, IGFBP-3, follicular fluid, serum 1421
Growth hormone receptor
immunohistochemistry, granulosa cells, corpus luteum, luteal phase 2259

β-haemoglobin gene sequence
preimplantation diagnosis, cell recycling, polymerase chain reaction, FISH 2150
Haemophilia
preimplantation diagnosis, polymerase chain reaction, FISH 912
preimplantation diagnosis, sex preselection, twinning, case report 2156
Hamilton–Thorn motility analyser
American/European versions, computer-assisted sperm analysis, sperm hyperactivation 456
computer-assisted sperm analysis, semen analysis, prospective study, pregnancy rates 2324
computer-assisted semen analysis, sperm motility 310
HCG
β-HCG, ectopic pregnancy, laparoscopy, methotrexate 92
anti-HCG vaccination, contraception 267
anti-HCG vaccines, contraception 578
blastocysts, interferon-α 1522
corpus luteum, luteal phase, steroidogenesis 591
ectopic pregnancy, diagnosis, progesterone 157
ectopic pregnancy, trophoblastic activity, prostaglandin $F_{2\alpha}$, progesterone 1170
HCG secretion, preimplantation embryos, cleavage rate, morphological assessment 1909
IVF, ovarian hyperstimulation syndrome, early/late presentation, clinical predictors 792
ovulation induction, pure urinary LH, oestradiol, progesterone, rabbit 413
placenta, retinoids, gestational effects, vitamin A 1166
predictive value, IVF–ET, spontaneous conception, ectopic pregnancy, spontaneous abortion 1550
serum HCG, IVF, Pergonal, HMG, LH 638
Heart rate
early embryonic heart rate, ultrasonography 2424
Heat shock protein
endometrium, female infertility 1253
Heat treatment
serum heat treatment, IVF, culture medium, outcome 1749
Heparin
antiphospholipid antibodies, IVF–ET, pregnancy rates 2278

Herbal medicine
multiple follicular development, herbal medicine, *Vitex agnus castus* 1469
Heterotopic pregnancy
IVF–ET, salpingectomy, case report 1966
Hexokinase
embryos, development *in vitro*, mouse 347
Histocompatibility
HLA antigens, pre-eclampsia, oocyte donation 2444
Histocompatibility antigens
recurrent spontaneous abortion 1195
Histocompatibility linked antigens
gene sequences, sperm penetration assay, fertilization 279
HLA antigens
premature ovarian failure, thyroid disease, autoimmune disorders 2006
HMG
allergic reactions, guinea-pig, mouse 1845
GnRH agonist, IVF, prolactin, gonadotrophins, steroid hormones 1803
GnRHa, ovulation induction, ultrasound-only monitoring 1631
luteal support, endometrium, maturation, GnRH agonist 32
ovarian stimulation, IVF–ET, bilateral salpingectomy, case–control study 624
ovulation induction, clomiphene citrate, frozen/thawed ova, pregnancy rates 1556
ovulation induction, low dose LH, follicular growth, hypogonadotrophic hypogonadism 431
Pergonal, IVF, serum HCG 638
unexplained infertility, GnRH agonist, intra-uterine insemination, prospective study 1043
urinary, purity of commercial preparations 2291
Hormone replacement therapy
low-dose aspirin, uterine perfusion, frozen embryo replacement 1954
menopause, bone loss 1801
Human Fertilisation and Embryology Act (1990)
questionnaire, performance 1779
Human leukaemia inhibitory factor
blastocysts, inner cell mass, isolation, culture 2110
Hydatidiform mole
female sibship, frequent occurrence 1783
IVF–ET, coexistent fetus, DNA fingerprinting 1770
Hydrosalpinx
formation, correction, regeneration, rabbit 2090
IVF–ET, low implantation rate 1935
IVF–ET, pregnancy rates 861
Hyperandrogenaemia
amenorrhoea, polycystic ovary syndrome, ovarian wedge resection, gonadotrophins 1022
ovarian hyperstimulation syndrome, polycystic ovary syndrome, laparoscopic cautery of the ovarian surface 2342
Hyperketonaemia
diabetes mellitus, preimplantation development, mouse 113
Hypertestosteronaemia
obesity, insulin, dylipidaemia, pre-menopausal women, coronary heart disease 610
Hypogonadotrophic hypogonadism
ovulation induction, cumulative conception rates 1563
ovulation induction, low dose LH, HMG, follicular growth 431
Hypothalamic–pituitary–ovarian–endometrial axis
cytokines, systemic effects, body temperature, gonadal steroid hormones 947
Hypothalamic-pituitary-gonadal axis
anti-oestrogen, ICI 182,780, endometrial proliferation 1991
Hypoxanthine
follicles, growth rates *in vitro*, FSH, relaxin, cyclic AMP, mouse 1003
Hysterectomy
total hysterectomy, laparoscopy 2084
Hysterosalpingosonography
Doppler imaging, tubal patency 64
Hysterosalpingography
hysteroscopy, comparative study, female infertility 2353
Hysteroscopy
hysterosalpinography, comparative study, female infertility 2353
metroplasty, Müllerian fusion defects, uterine septa 87

ICI 182,780
anti-oestrogen, hypothalamic-pituitary-gonadal axis, endometrial proliferation 1991
IGF-I
granulosa–lutein cells, oestradiol, control of secretion, FSH 19
Immunization
contraception, anti-HCG vaccination 267
Immunobead test
antisperm antibodies, auto-controlled study, IVF 1119
Immunoglobulin
cytomegalovirus, screening test, donor insemination 2076
intravenous administration, efficacy, IVF–ET failure 2265
Immunohistology
leukocytes, morphometry, endometrium, unexplained infertility 646
Immunology
gamete immunology, infertility, contraceptive vaccines 828
Immunosuppression
corticosteroids, methylprednisolone, IVF–ET, pregnancy rates 1832
lymphocytes, decidua, first trimester, transforming growth factor β_{-2} 2270
Immunotherapy
immunoglobulin, intravenous administration, efficacy, IVF–ET failure 2265
recurrent abortion, randomized trials 1247
Implantation
contraception, interception, endometrium, uterus 985
embryos, pyruvate uptake, embryo morphology, natural cycle IVF 2362
implantation phase, endometrial maturation, RU 486 2398
implantation prediction, endometrial thickness, transvaginal ultrasound, oocyte donation 363
implantation rate, oocyte donation, maternal age, predictive model 2160
implantation rates, IVF–ET, seasonal variation 2164
implantation rates, oocyte donation, GnRH analogues 1761
low implantation rate, hydrosalpinx, IVF–ET 1935
pregnancy, oestrogen, luteal phase, rhesus monkey 629
prognosis, cumulus–corona complex, IVF–ET, pregnancy rate 1308
prostaglandin $F_{2\alpha}$, RU 486, naproxen 1626
Indomethacin
prostanoids, umbilical artery, endothelium-dependent relaxation, substance P 733
Infertility
asthenozoospermia, soluble IL-2 receptors, low sperm motility 653
Chile, prevalence, duration 273
endometriosis, IVF, oocyte donation, treatment outcome 725
endometriosis, peritoneal fluid, iron concentration, acrosome reaction 1153
female Hispanics, anovulation, dopamine D_2 receptor 1271
female infertility, endometriosis, prevalence, anatomical distribution, Italian multicentre study 1158
female infertility, endometrium, heat shock protein 1253
female infertility, evaluation of diagnostic testing, case–control study 2306
female infertility, hysterosalpinography, hysteroscopy, comparative study 2353
female infertility, ovarian stimulation, Oliver–Mcfarlane syndrome, growth hormone 1997
female infertility, unicornuate uterus, ovulation induction, case reports 2311
gamete immunology, contraceptive vaccines 828
idiopathic male infertility, kallikrein, treatment trial, semen analysis 325
infertile women, gonadotrophins, low response, anti-ovarian antibodies, insulin-like growth factors 806
infertile women, ovarian ageing/failure, elevated basal FSH 245
male factor infertility, pentoxifylline, treatment efficacy 996
male infertility, acrosome reaction, characterization, frequency distribution 1875
male infertility, azoospermia, retrograde ejaculation 381
male infertility, diagnostic andrology, assisted reproductive techniques 1209
male infertility, intra-uterine insemination, intra-peritoneal insemination, GIFT, ESHRE multicentre trial 1112
male infertility, intracytoplasmic sperm injection, fertilization rates 2051
male infertility, intracytoplasmic sperm injection, sperm preparation 1127
male infertility, IVF, acrosome reaction, inducibility, prognostic ability 1880
male infertility, IVF, pentoxifylline, efficacy 1289
male infertility, LH pulsatility, testosterone, oestradiol 781
male infertility, management guidelines, ESHRE workshop 1260
male infertility, pregnancy, prognostic variables, semen analysis 1102
male infertility, pregnancy prediction, semen parameters 1887

male infertility, semen, sperm precursors, leukocytes 1701
male infertility, sperm gene expression, RNA fingerprinting, polymerase chain reaction 864
male infertility, sperm motility, sperm–zona interactions 1322
male infertility, sperm parameters, ATP, resazurin test 1688
male infertility, spermatozoa, nuclear condensation, protamines, transition protein 1 2313
male infertility, testes, texture, volume, ultrasonography 878
male infertility, timed intercourse, ovarian stimulation, intra-uterine insemination 2022
male infertility, treatments, cross-over design, meta-analysis 566
male infertility, vas deferens, congenital bilateral absence, cystic fibrosis, diagnostic andrology 1214
prognostic indicators, donor insemination, spontaneous cycles 1852
severe male factor infertility, IVF failure, subzonal insemination, intracytoplasmic sperm injection, success rates 680
unexplained infertility, endometrium, leukocytes, morphometry, immunohistology 646
unexplained infertility, HMG, GnRH agonist, intra-uterine insemination, prospective study 1043
unexplained infertility, ovarian stimulation, late low-dose pure FSH, clomiphene citrate 1863
unexplained infertility, retarded endometrium, placental protein 14, saliva progesterone 394
unexplained infertility, subzonal insemination, zona pellucida, sperm penetration defect 2335
varicocele, subclinical, review, treatment 1

Inhibin
gonadotrophin-deficiency, recombinant FSH, ovarian response, Kallman's syndrome 1237
serum, menstrual cycle, ovarian stimulation, two site immunoassay 1634
testes, Sertoli cells, germ cells, paracrine control 2062

Inner cell mass
blastocysts, isolation, culture, human leukaemia inhibitory factor 2110

Insulin
adrenocorticotrophin hormone, opioid antagonist, androgens, steroidogenesis, polycystic ovary syndrome 2242
insulin receptor gene, tyrosine kinase domain, polycystic ovary syndrome, hyperinsulinaemia 1681
obesity, hypertestosteronaemia, dylipidaemia, pre-menopausal women, coronary heart disease 610

Insulin-like growth factors
anti-ovarian antibodies, infertile women, gonadotrophins, low response 806
IGF binding proteins, uterine fibroids, LHRH agonist 214
IGF-I, follicular fluid, oocytes, IVF 902
IGF-I, granulosa–lutein cells, steroidogenesis, oestradiol, FSH 19
IGFBP-1, follicular activity, IVF–ET, down-regulation 1417
IGFBP-1, uterine endocrinology, pregnancy, endometrium 917
IGFBP-3, follicular fluid, serum, ovarian stimulation, growth hormone 1421
IGFBP-3, granulosa–lutein cells, follicular fluid, prostaglandin $F_{2\alpha}$ 1643

Interception
contraception, implantation, endometrium, uterus 985

Intercourse
timed intercourse, ovarian stimulation, male infertility, intra-uterine insemination 2022

Interferon-α
blastocysts, HCG 1522

Interleukins
IL-1, endometrium, epithelial cells, placental protein 14 1339
IL-1, endometrium, decidualization *in vitro*, tumour necrosis factor α, prolactin 2411
IL-1β, PGE_2, $PGF_{2\alpha}$, follicular fluid 9
IL-8, endometrium, perivascular location 1406
IL-8, IL-1β, cervical ripening, guinea-pigs 2173
IL-8, neutrophils, progesterone, endometrium, chorio-decidual cells, menstruation parturition
soluble IL-2 receptors, asthenozoospermia, low sperm motility 653

Interstitial pregnancy
methotrexate, unsuccessful case report 1576

Intra cervical insemination
cryopreservation, donor insemination, clomiphene citrate, HMG 661

Intra-peritoneal insemination
male infertility, ESHRE multicentre trial 1112

Intra-uterine insemination
antisperm antibodies, chymotrypsin/galactose treatment, pregnancy rates, Percoll, albumin 484
azoospermia, vas deferens, sperm retrieval, live birth 875
cervical pregnancy, methotrexate, successful case report 1580
cryopreservation, donor insemination, clomiphene citrate, HMG 661
low-dose aspirin, hormone replacement therapy 1954
male infertility, ESHRE multicentre trial 1112
male infertility, timed intercourse, ovarian stimulation, pregnancy rates 2022
ovarian hyperstimulation syndrome, IVF–ET, pregnancy rates 406
ovarian stimulation, late low-dose pure FSH, clomiphene citrate 1863
ovarian stimulation, maternal age 2284
prediction, optimization, ovulation induction 2014
unexplained infertility, HMG, GnRH agonist, prospective study 1043

Intracytoplasmic injection of spermatozoa
spermatids, micromanipulation techniques 2217

Intracytoplasmic sperm injection
children, follow up, congenital malformations 1765
efficacy of late ICSI, IVF 1359
epididymal sperm aspiration, percutaneous/microscopic aspiration 2058
failed SUZ1, fertilization/pregnancy rates 501
fertilization failure, ultrastructure 2374
IVF failure, severe male factor infertility, subzonal insemination, success rates 680
male infertility, fertilization rates 2051
oocyte activation, intracellular free calcium, confocal lower scanning microscopy 511
oocytes, maturation, intracellular $[CA^{2+}]$ 977
oocytes, pronucleus formation, cleavage, time-course 1743
retrograde ejaculation, pregnancy 1293
sperm preparation, pentoxifylline, 2-deoxyadenosine, electroporation 1127
spermatozoa, oocytes, cytological analysis, puromycin 2139
success rates, sperm immotility 2445
vas deferens, congenital absence 1705

Intramural pregnancy
IVF–ET, case report 2427

Ionophore challenge
spermatozoa, acrosome reaction, ARIC test, assay reproducibility 2079

Iron concentration
peritoneal fluid, acrosome reaction, endometriosis, infertility 1153

IVF
ascorbic acid, embryo development 1717
assisted hatching, partial zona dissection, Er:YAG laser 1723
auto-controlled study, antisperm antibodies, immunobead test 1119
children, mothers, psychological evaluation 1097
co-culture, bovine oviduct epithelial cells, assisted hatching, zona drilling 1528
co-culture, Vero cells, blastocysts, pregnancy rates 1131
comparison of culture media, Earle's balanced salt solution, Ménézo B2 medium, fertilization rates 1915
cryopreservation, embryos, birth characteristics, perinatal mortality 543
culture medium, serum heat treatment, outcome 1749
dizygotic triplet pregnancy, case report 1362
early follicular phase, progesterone, GnRH agonist, flare-up effect 235
efficacy of late ICSI 1359
embryos, co-culture, peritoneal macrophages, 2-cell block, mouse 692
endometriosis, infertility, treatment outcome 725
epididymal sperm aspiration, vas deferens, congenital absence, cystic fibrosis 1710
failed IVF, subzonal insemination, reinsemination, fertilization rates 669
FISH, embryo morphology, chromosomes, X,Y,18 506
follicular fluid, anti-zona-pellucida antibodies, fertilization failure 1827
GIFT, singleton deliveries, birthweight, primiparity 141
GnRH agonist, inadvertent administration, early pregnancy, outcome 1243
IVF failure, assisted conception, prognosis 2287
IVF failure, severe male factor infertility, subzonal insemination, intracytoplasmic sperm injection, success rates 680
IVF failure, sperm–zona binding/penetration tests 489
IVF/GIFT cycles, embryos, cryopreservation, large series 103
monoamniotic pregnancy, bioamniotic twinning, case report 374
natural cycle IVF, embryo morphology, pyruvate uptake, implantation 2362
oocyte aspiration, endometriosis, infected ovarian cysts 1759
oocytes, chromosomal abnormalities 343
oocytes, cryopreservation, embryo development, dimethylsulphoxide, mouse 130

oocytes, follicular fluid, IGF-I, growth hormone, epidermal growth factor, oestradiol 902
oocytes, in-vitro culture, embryos for research 969
ovarian hyperstimulation syndrome, early/late presentation, clinical predictors, HCG 792
ovarian stimulation, gonadotrophins, borderline tumours 2032
ovarian stimulation, low responders, anti-zona pelludica antibodies, antisperm antibodies 643
ovarian stimulation, poor responders, FSH, ovarian reserve, screening test 1607
ovulation induction, LHRH agonist, reduced dosage 1813
pentoxifylline, embryonic development, parthenogenesis, mouse 1903
Pergonal, HMG, LH, serum HCG 638
poor fertilizers, pentoxifylline, efficacy 1289
poor responders, growth hormone, ovarian stimulation, Norditropin 13
preimplantation embryos, chromosome evaluation, aneuploidy 709
preimplantation embryos (grade IV), chromosomal abnormalities 293
prognostic ability, acrosome reaction, inducibility 1880
sperm–oocyte interaction, membrane cofactor protein, CD46 907
sperm–zona interaction, acrosome reaction 1694
sperm penetration, germinal vesicle stage, developmental potential, pronuclear formation, cortical granule reaction 697
subzonal insemination, acrosome reaction, platelet activating factor, embryonic development, rabbit 94
swim-up medium, prostasomes, enhanced motile sperm recruitment 1485
teratozoospermia, prognosis, randomized prospective study 1479
unexplained infertility, oocyte maturation *in vitro*, mice 1136
unstimulated cycles, pregnancy rates, determining factors 1571
vas deferens, congenital absence, intracytoplasmic sperm injection 1705

IVF–ET
β-thalassaemia, tubal embryo transfer, twin pregnancy, case report 1964
antiphospholipid antibodies, aspirin, heparin, pregnancy rates 2278
bilateral total salpingectomy, heterotopic pregnancy, case report 1966
cumulus–corona complex, implantation, prognosis, pregnancy rate 1308
down-regulation, follicular activity, IGFBP-1 1417
dummy embryo transfer, methylene blue, catheters 1257
follicular fluid, cortisol, pregnancy rates 1944
gestational trophoblastic disease, methotrexate, EMACO treatment 2010
GnRH agonist, normal cycles, frozen embryos, placental protein 14, first trimester 2429
hydatidiform mole, coexistent fetus, DNA fingerprinting 1770
hydrosalpinx, low implantation rate 1935
hydrosalpinx, pregnancy rates 861
implantation rates, seasonal variation 2164
indications for embryo transfer, blastocysts, co-culture, Vero cells, pregnancy rates 2367
intramural pregnancy, case report 2427
IVF–ET failure, immunoglobulin, intravenous administration, efficacy 2265
IVF failure, statistical analysis, pregnancy rate 738
LHRH antagonists, GIFT, polycystic ovary syndrome, endometriosis, uterine fibrosis 767
micromanipulation, immunosuppression, corticosteroids, methylprednisolone, pregnancy rates 1832
number of embryos, multifetal pregnancies, complications 184
oocyte donation, β-thalassaemia major 1143
outcome prediction, uterine receptivity, magnetic resonance imaging, ultrasonography 2438
ovarian hyperstimulation syndrome, intra-uterine insemination, pregnancy rates 406
ovarian stimulation, gonadotrophins, subcutaneous/intramuscular administration 1070
ovarian stimulation, HMG, bilateral salpingectomy, case–control study 624
ovarian stimulation, subcutaneous pure FSH, GnRH agonist, outcome 1430
ovulation induction, GnRHa, HMG, ultrasound-only monitoring 1631
peri-adnexal adhesions, lysis, pregnancy rates 2339
polycystic ovary syndrome, GnRH agonist, follicular development 1596
pregnancy, HCG, predictive value 1550
prognosis, statistical models 448
prognostic factors, previously successful trails, embryo quality 1932
recombinant FSH, Org 32489, clinical efficacy 1064
success rates, seasonality 2300
teratozoospermatozoa, fertilization rates, pregnancy rates/outcome 870

IVF/GIFT
chorionic sac, sac diameter, abortus karyotype, growth curves 559

Kallikrein
idiopathic male infertility, treatment trial, semen analysis 325
sperm motility stimulants 192

Kallman's syndrome
gonadotrophin-deficiency, recombinant FSH, ovarian response, inhibin 1237

Keratan sulphate
secretion, endometrium, epithelial differentiation, LH peak 926

Kuru
spongiform encephalopathies, prion disease, vertical transfer, debate 1792

Labour
utero-cervical inhibitory reflex 2220

Lactate
testes, Sertoli cells, germ cells, paracrine control 2062

Laparoscopic cautery of the ovarian surface
polycystic ovary syndrome, ovarian hyperstimulation syndrome, hyperandrogenaemia 2342

Laparoscopy
argon laser, vaporization/perforation, polycystic ovary syndrome 1038
ectopic pregnancy, trophoblastic implants, β-HCG, methotrexate 92
laparoscopic partial cystectomy, bladder endometriosis, pregnancy, case report 730
laser surgery, primary ovarian pregnancy 1337
polycystic ovary syndrome, treatment, premature ovarian failure 573
salpingectomy, pregnancy rates, ectopic pregnancy 83
salpingostomy, tuboplasty, pregnancy rates 334
total hysterectomy 2084
transvaginal ultrasound, unicornuate uterus, GnRH agonist 1297
unwinding of adnexal torsion, ovarian hyperstimulation syndrome 2350

Lasers
Er:YAG laser, assisted hatching, partial zona dissection, subzonal insemination 1723
Er:YAG laser, photoablation, zona pellucida, fertilization rates, live births 1891

Legislation
assisted reproductive techniques, filiation, ethics, British/French trends 1348
donor insemination, lesbian women, child welfare, legislation 1969
Human Fertilisation and Embryology Act (1990), questionnaire, performance 1779
posthumous reproduction, assisted reproductive techniques, ethics 2182
UK HFEA public consultation document, oocyte donation, fetal/cadaveric tissue 931
UK legislation, donor insemination, recruitment, supply, screening 882

Lesbian women
donor insemination, child welfare, legislation, ethics 1969

Leukocytes
sperm precursors, semen, male infertility 1701

Leukocytospermia
cytokines, semen, recurrent spontaneous abortion 1180

Leuprolide acetate
follicle cyst formation 1983
GnRH agonist, uterine fibroids (leiomyomata), add-back therapy 1618

Levonorgestrel
contraception, effectiveness, side-effects, review 1818
endothelial cells, proliferation, endometrium 1647

Lewis blood groups
sperm–zona interaction, fucose-containing epitope, human, pig, cow 1532

LH
follicular development, FSH, ovulation 188
FSH, LHRH, GnSAF, post-menopausal women 241
FSH, secretion control mechanism, pre-pubertal children, post-menopausal women 1807
hypersecretion, recurrent abortion, ovarian steroids 179
invisible LH, clinical significance, immunoradiometric assay 1987
IVF, Pergonal, serum HCG 638
LH peak, endometrium, epithelial differentiation, keratan sulphate, secretion 926
LH pulsatile secretion, polycystic ovary syndrome, ovarian wedge resection 1022
LH pulsatility, testosterone, oestradiol, male infertility 781
LH response, FSH treatment, gonadotrophin surge-inhibiting factor, GnRH 1600
LH secretion, gonadotrophin surge-attenuating factor, GnRH 1437

LH surge, follicular fluid, endothelial cells, chemotaxis 1226
LH surge, GnRH agonist, ovarian hyperstimulation syndrome 417
LH surge suppression, GnRH antagonist, Cetrorelix, ovulation induction 788
LH:FSH ratio, histopathological changes, ultrasonography, polycystic ovary syndrome 2255
ovulation, primary follicle culture system, fertilization, mouse 527
pure urinary LH, ovulation induction, HCG, oestradiol, rabbit 413
urinary LH, donor insemination, timing, transvaginal ultrasound 1859
LHRH
agonists and antagonists, cancer, ovary, endometrium, breast 1364
FSH, LH, GnSAF, post-menopausal women 241
GnRH agonist, long desensitization, ovarian stimulation, buserelin 220
LHRH agonist, reduced dosage, IVF 1813
LHRH analogues, male contraceptive methods, androgens, progestins 586
LHRH antagonists, IVF–ET, GIFT, polycystic ovary syndrome, endometriosis, uterine fibrosis 767
LHRH agonist
uterine fibroids, insulin-like growth factors, IGF binding proteins 214
Lipoperoxidation
reactive oxygen species, sperm membrane, dyspermia, glutathione 2044
Luteal phase
corpus luteum, cytological characterization, steroidogenesis, HCG 591
corpus luteum, granulosa cells, immunohistochemistry, growth hormone receptor 2259
oestrogen, embryo transfer, implantation, pregnancy, rhesus monkey 629
retarded endometrium, treatment comparison, artificial cycle, progesterone supplementation 409
Luteal support
GnRH agonist, HMG, endometrium, maturation 32
Lymphocytes
complement component 3, endometrium, immunohistochemistry 1652
decidua, first trimester, granulocyte–macrophage colony stimulating factor 1660
progesterone receptor, recurrent abortion, prognosis 1546
transforming growth factor β_{-2}, decidua, first trimester 2270

Müllerian fusion defects
hysteroscopy, metroplasty, uterine septa 87
Ménézo B2 medium
Earle's balanced salt solution, IVF, comparison of culture media, fertilization rates 1915
Macrophages
peritoneal macrophages, embryos, co-culture, 2-cell block, mouse 692
Madin Darby bovine kidney cells
co-culture, bovine embryos 1927
Magnetic resonance imaging
ultrasonography, uterine receptivity, IVF–ET, outcome prediction 2438
Malonate
glycolysis, TCA cycle, pre-antral follicles 604
Maternal age
oocyte donation, implantation rate, predictive model 2160
ovarian stimulation, intra-uterine insemination 2284
Maternal blood
trophoblasts, genetic evaluation, prenatal diagnosis, polymerase chain reaction 1184
Maternal serum
relaxin, first trimester 1561
Meiosis
meiotic progression, oocytes, *in vitro*/*in vivo*, germinal vesicle, mouse 352
oocytes, germinal vesicle stage, IVF, pronuclear formation 697
Melatonin
secretion, gonadotrophins, contraceptives, pregnancy 49
Membrane cofactor protein
CD46, sperm–oocyte interaction, IVF 907
Menopause
bone loss, hormone replacement therapy 1801
Fallopian tube, epithelium, endometrial gland, ultrastructure 2234
Fallopian tube, epithelium, ultrastructure 2224
oestrogen receptor, progesterone receptor, Fallopian tube, uterus, immunohistochemistry 1027
oocyte donation, community attitudes 167
Menstrual cycle
endometrium, endothelial cell proliferation, angiogenesis, immunohistochemistry 399
Fallopian tube, epithelium, endometrial gland, ultrastructure 2234
Fallopian tube, epithelium, ultrastructure 2224
oestrogen receptor, progesterone receptor, Fallopian tube, uterus, immunohistochemistry 1027
serum, inhibin, ovarian stimulation, two site immunoassay 1634
Menstruation
functional significance 1202
neutrophils, IL-8, progesterone 253
utero-cervical inhibitory reflex 2220
Meta-analysis
male infertility, treatments, cross-over design 566
Methotrexate
cervical pregnancy, successful case report 1580
ectopic pregnancy, laparoscopy, trophoblastic implants, β-HCG 92
ectopic pregnancy, management techniques, surgical treatment 547
gestational trophoblastic disease, IVF–ET, EMACO treatment 2010
interstitial pregnancy, unsuccessful case report 1576
Methylene blue
dummy embryo transfer, catheters 1257
Methylprednisolone
immunosuppression, IVF–ET, micromanipulation, pregnancy rates 1832
Metoclopramide
prolactin response, body weight, thyrotrophin-releasing hormone, secondary amenorrhoea 800
Micromanipulation
IVF–ET, immunosuppression, corticosteroids, pregnancy rates 1832
Mifepristone–see RU 486
Mitosis
centrosome inheritance, male gametes, parthenogenesis 1220
Monozygotic twinning
zona pellucida architecture, IVF–ET cases 1318
Morula
embryogenesis, *in vivo*/*in vitro*, timing of development, hamster 2123
Multiple births
legitimacy, illegitimacy, trends in Italy 1784
Multiple pregnancy
multifetal reduction, counselling, ethics 1978

Nafarelin
GnRH agonist, IVF–ET, pregnancy rates, buserelin 226
Naproxen
RU 486, uterine fluid, prostaglandin $F_{2\alpha}$, implantation 1626
Neutrophils
IL-8, progesterone, menstruation, parturition 253
Nitric oxide
uterine artery, relaxation, acetylcholine 387
Norplant–see levonorgestrel

Obesity
hypertestosteronaemia, insulin, dylipidaemia, pre-menopausal women, coronary heart disease 610
response to ovulation induction, gonadotrophins, anthropometry 420
Oestradiol
control of secretion, granulosa–lutein cells, FSH, IGF-I 19
follicular fluid, oocytes, IVF 902
LH pulsatility, testosterone, male infertility 781
steroidogenesis, pure urinary FSH (Metrodin), multicentre phase III study 424
17β-oestradiol
testes, Sertoli cells, germ cells, paracrine control 2062
Oestrogen
anti-oestrogen, ICI 182,780, hypothalamic-pituitary-gonadal axis, endometrial proliferation 1991
breast cancer, tamoxifen, ovarian cysts, GnRH agonist 1427
Centchroman (anti-oestrogen), contraception 578
luteal phase, embryo transfer, implantation, pregnancy 629
retinoic acid receptors, retinoid X receptors, endometrium 229
uterine fibroids (leiomyomata), add-back therapy, GnRH agonist, cholesterol (HDL), bone density 1618
Oestrogen receptor
endometriosis, different sites, immunohistochemistry 1752
endometrium, ovulation induction, GIFT, IVF 2405
Fallopian tube, uterus, menstrual cycle, menopause, immunohistochemistry 1027
progesterone receptor, androgen receptor, ovary, menstrual cycle, steroidogenesis 1589

Oligozoospermia
testicular obstruction, antisperm antibodies, orchidectomy, prednisolone 463
Oliver–Mcfarlane syndrome
ovarian stimulation, growth hormone, female infertility 1997
Onapristone
antiprogestin, arrested follicular growth, hormonal profile 1442
Oncovine
gestational trophoblastic disease, IVF–ET, EMACO treatment 2010
Oocyte donation
endometriosis, infertility, treatment outcome 725
ethics, legislation, British/French trends 1348
post-menopausal pregnancy, attitudes/ethics 571
Oocytes
chromosomal abnormalities, IVF 343
co-culture, cumulus oophorus, decreased fragmentation 1727
cryopreservation, germinal vesicle breakdown, mouse 1738
cryopreservation, IVF, embryo development, dimethylsulphoxide, mouse 130
cumulus oophorus, acrosome reaction, fertilization, contraception 842
embryos, pentoxifylline, sperm preparation, phosphodiesterase, mouse 556
germinal vesicle stage, IVF, developmental potential, pronuclear formation, cortical granule reaction 697
in-vitro growth, assisted reproductive techniques 1585
intracellular oscillations, membrane hyperpolarizations, cytosolic sperm factor 2356
IVF, follicular fluid, IGF-I, growth hormone, epidermal growth factor, oestradiol 902
IVF, in-vitro culture 969
maturation, IL-1β, PGE_2, $PGF_{2\alpha}$ 9
maturation, fertilization, intracellular [CA^{2+}], fertilization 977
meiotic progression, follicle growth, *in vitro*/*in vivo*, germinal vesicle, mouse 352
oocyte activation, intracellular free calcium, intracytoplasmic sperm injection, confocal lower scanning microscopy 511
oocyte aspiration, endometriosis, infected ovarian cysts 1759
oocyte donation, aneuploidy, postmenopausal women 1199
oocyte donation, endometrial thickness, transvaginal ultrasound, implantation prediction, pregnancy outcome 363
oocyte donation, endometriosis, infertility, treatment outcome 725
oocyte donation, first trimester, CA 125, Turner's syndrome 147
oocyte donation, implantation rate, maternal age, predictive model 2160
oocyte donation, implantation rates, GnRH analogues 1761
oocyte donation, IVF–ET, β-thalassaemia major 1143
oocyte donation, menopause, community attitudes 167
oocyte donation, pre-eclampsia, histocompatibility, HLA antigens 2444
oocyte donation, pregnancy outcome/high risk, ovarian failure, complications 538
oocyte donation, psychological evaluation 1344
oocyte donation, UK HFEA public consultation document, legislation 931
oocyte maturation *in vitro*, antral follicle development, pregnant mare's serum gonadotrophin, anterior pituitary hormones, macaques 2130
oocyte maturation *in vitro*, unexplained infertility, mice 1136
oviductal exposure, morphology, sperm penetration, fertilization, ovarian bursa 519
parthenogenesis, DNA content, development, IVF 2389
parthenogenesis, sperm penetration frequency, IVF 2381
primary follicle culture system, fertilization, mouse 527
pronucleus formation, cleavage, time-course, intracytoplasmic sperm injection 1743
propanediol, cryopreservation, fertilization rates, karyotype evaluation 684
sperm–oocyte interaction, membrane cofactor protein, CD46, IVF 907
spermatozoa, intracytoplasmic sperm injection, cytological analysis, puromycin 2139
zona opening, macro/micromanipulation, sperm penetration, hamster 137
zona-free oocytes, oolemma binding, acrosome reaction, sperm morphology 673
Oophorectomy
cryopreservation, ovarian autografts, fertility, sheep 597
Opioid antagonist
adrenocorticotrophin hormone, insulin, androgens, steroidogenesis, polycystic ovary syndrome 2242
Orchidectomy
testicular obstruction, oligozoospermia, antisperm antibodies, prednisolone 463
Osteoporosis
menopause, hormone replacement therapy 1801
Ovarian synchrony factor
ultrasonography, follicular rupture prognosis 1250
Ovary
anti-ovarian antibodies, infertile women, gonadotrophins, low response 806
borderline tumours, ovarian stimulation, gonadotrophins, IVF 2032
cancer, LHRH, agonists and antagonists 1364
corpus luteum, luteal phase, granulosa cells, growth hormone receptor, immunohistochemistry 2259
endocrinology, steroidogenesis, gonadotrophins, follicular growth, ovulation 815
epithelial ovarian cancer, risk, fertility drugs 1673
Graafian follicle, endothelial cells, angiogenesis, immunohistochemistry 1401
granulosa cells, steroidogenesis, transforming growth factor β1, cAMP 2118
menstrual cycle, steroidogenesis, progesterone receptor, oestrogen receptor, androgen receptor 1589
oophorectomy, cryopreservation, ovarian autografts, fertility, sheep 597
ovarian ageing/failure, elevated basal FSH 245
ovarian bursa, oocytes, oviductal exposure, morphology, sperm penetration 519
ovarian cysts, breast cancer, tamoxifen, GnRH agonist 1427
ovarian cysts, endometriosis, classification, endoscopy 2213
ovarian cysts, GnRHa, buserelin, triptorelin, leuprolide acetate 1983
ovarian failure, oocyte donation, pregnancy outcome/high risk, complications 538
ovarian hyperstimulation syndrome, day care management 812
ovarian hyperstimulation syndrome, early/late presentation, clinical predictors, IVF, HCG 792
ovarian hyperstimulation syndrome, Fallopian tube, laparoscopy, unwinding of adnexal torsion 2350
ovarian hyperstimulation syndrome, intra-uterine insemination, IVF–ET, pregnancy rates 406
ovarian hyperstimulation syndrome, intravenous albumin treatment 753
ovarian hyperstimulation syndrome, LH surge, GnRH agonist 417
ovarian hyperstimulation syndrome, polycystic ovary syndrome, laparoscopic cautery of the ovarian surface, hyperandrogenaemia 2342
ovarian hyperstimulation syndrome, polycystic ovary syndrome, Yoruba African/Caucasian Women 1077
ovarian response, recombinant FSH, gonadotrophin-deficiency, Kallman's syndrome, inhibin 1237
ovarian stimulation, borderline tumours, gonadotrophins, IVF 2032
ovarian stimulation, clomiphene citrate, HMG, donor insemination 661
ovarian stimulation, endometrium, maturation, ultrastructure 32
ovarian stimulation, gonadotrophins, subcutaneous/intramuscular administration, IVF–ET 1070
ovarian stimulation, growth hormone, IGFBP-3, follicular fluid, serum 1421
ovarian stimulation, growth hormone, IVF, poor responders 13
ovarian stimulation, intra-uterine insemination, maternal age 2284
ovarian stimulation, IVF–ET, bilateral salpingectomy, case–control study 624
ovarian stimulation, IVF–ET, subcutaneous pure FSH, GnRH agonist, outcome 1430
ovarian stimulation, LHRH, GnRH agonist, long desensitization, buserelin 220
ovarian stimulation, low responders, antisperm antibodies, anti-zona pelludica antibodies 643
ovarian stimulation, male infertility, timed intercourse, intra-uterine insemination 2022
ovarian stimulation, Oliver–Mcfarlane syndrome, growth hormone, female infertility 1997
ovarian stimulation, poor responders, FSH, ovarian reserve, screening test 1607
ovarian stimulation, serum, inhibin, serum 1634
ovarian suppression, GnRH agonist, Zoladex, premenstrual tension 1058
ovarian tissue donation, fetal/cadaveric tissue, UK HFEA public consultation document 931
ovarian wedge resection, polycystic ovary syndrome, gonadotrophins 1022
polycystic ovary syndrome, ovarian hyperstimulation syndrome, multifetal pregnancy reduction 1190
premature ovarian failure, polycystic ovary syndrome, treatment,

laparoscopy 573
primary ovarian pregnancy, laparoscopy, laser surgery 1337
resistant ovary syndrome, blepharophimosis, familial cases, case report 2034
severe ovarian hyperstimulation syndrome, albumin, intravenous administration 2186
steroidogenesis, multiple follicular development, pure urinary FSH (Metrodin), multicentre phase III study 424
surface epithelium injury, adhesions, plasminogen activator, histology, electron microscopy, rabbit 497

Oviduct
human fetus, vascular architecture, corrosion casting, scanning electron microscopy 1958
spermatozoa, oviductal cell coincubation, sperm motility, computer-assisted sperm analysis 656

Ovulation
anovulation, female Hispanics, dopamine D_2 receptor 1271
buserelin, clomiphene citrate, gonadotrophin concentrations, pregnancy 41
chlorinated hydrocarbons, tissue accumulation, rabbit 772
follicular development, FSH, LH 188
gonadotrophins, follicular growth 815
ovulation induction, embryos, development *in vitro*, hexokinase, mouse 347
ovulation induction, endometrium, steroid receptors, growth factor receptors, spontaneous cycles 200
ovulation induction, endometrium, steroid receptors 2405
ovulation induction, female infertility, unicornuate uterus, case reports 2311
ovulation induction, GnRHa, HMG, ultrasound-only monitoring 1631
ovulation induction, growth hormone, clonidine test, conception rates 209
ovulation induction, HMG, clomiphene citrate, frozen/thawed ova, pregnancy rates 1556
ovulation induction, IVF, Yoruba African/Caucasian Women, polycystic ovary syndrome 1077
ovulation induction, LH surge suppression, GnRH antagonist, Cetrorelix 788
ovulation induction, LHRH agonist, reduced dosage 1813
ovulation induction, low dose LH, follicular growth, HMG, hypogonadotrophic hypogonadism 431
ovulation induction, natural cycles, adenylyl cyclase, hamster 2247
ovulation induction, polycystic ovary syndrome, hypogonadotrophic hypogonadism, weight-related amenorrhoea, cumulative conception rates 1563
ovulation induction, pure urinary LH, HCG, oestradiol, progesterone, rabbit 413
ovulation induction, recombinant FSH, pregnancy, polycystic ovary syndrome 55
primary follicle culture system, LH, fertilization, mouse 527
response to ovulation induction, gonadotrophins, anthropometry, obesity 420

Ovulation induction
intra-uterine insemination, prediction, optimization 2014
ovulation, polycystic ovary syndrome, FSH, low-dose step-up treatment 1612

Pancreatitis
acute pancreatitis, endometriosis, danazol, side-effects 1163

Parathyroid hormone related protein
cellular expression, trophoblast, immunohistochemistry 149

Parthenogenesis
IVF, pentoxifylline, mouse 1903
mitosis, centrosome inheritance, male gametes 1220
oocytes, DNA content, development, IVF 2389
oocytes, sperm penetration frequency, IVF 2381

Parturition
neutrophils, IL-8, progesterone 253

PCB
chlorinated hydrocarbons, fertility, embryonic development, rabbit 1920

Pelizaeus-Merzbacher syndrome
preimplantation diagnosis, polymerase chain reaction, FISH 912

Pelvic lesions
endometriosis, peritoneal lesions, 'chocolate' cysts 770

Pentoxifylline
A23187, acrosome reaction, flow cytometry, CD46 antibody, Percoll 71
acrosome reaction, FITC-PNA, follicular fluid 77
asthenozoospermia, 2-deoxyadenosine, hyperactivation, acrosome reaction 2038
capacitation, acrosome reaction, progesterone 2103
efficacy, IVF, poor fertilizers 1289
IVF, embryonic development, parthenogenesis, mouse 1903
male factor infertility, treatment efficacy 996
sperm motility, zona pellucida binding capacity, teratozoospermia 477
sperm motility stimulants 192
sperm preparation, intracytoplasmic sperm injection 1127
sperm preparation, phosphodiesterase, oocytes, embryos, mouse 556
spermatozoa, capacitation, acrosome reaction, hyperactivation 2318
spermatozoa, hyperactivation, donor insemination, pregnancy rates 1684

Peptide histidine methionine
follicular fluid, granulosa–luteal cells, DNA synthesis, steroidogenesis 1053

Percoll
acrosome reaction, pentoxifylline, flow cytometry 71
albumin, antisperm antibodies, intra-uterine insemination, chymotrypsin/galactose treatment 484
sperm preparation, FISH, sex preselection 1265

Pergonal
IVF, serum HCG 638

Peri-adnexal adhesions
lysis, IVF–ET, pregnancy rates 2339

Perinatal mortality
cryopreservation, embryos, birth characteristics 543

Peritoneal fluid
endometriosis, sperm motility parameters, computer-assisted sperm analysis 2418
exogenous progesterone, sperm motility *in vitro* 303
iron concentration, endometriosis, acrosome reaction, infertility 1153

Peritoneal lesions
endometriosis, 'chocolate' cysts, pelvic lesions 770

Peritoneal macrophages
co-culture, embryos, IVF, 2-cell block, mouse 692

Phosphodiesterase
pentoxifylline, oocytes, embryos, mouse 556

Placenta
HCG, retinoids, gestational effects, vitamin A 1166
placental xenobiotic enzymes, maternal serum, smoking 1017
steroidogenesis, gonadotrophin concentrations, corpus luteum 41

Placental protein 14
endometrium, epithelial cells, IL-1 1339
first trimester, IVF–ET, GnRH agonist, normal cycles, frozen embryos 2429
retarded endometrium, unexplained infertility, saliva progesterone 394
uterine endocrinology, endometrium, pregnancy 917

Plasminogen activator
ovary, surface epithelium injury, adhesions, rabbit 497

Platelet activating factor
acrosome reaction, IVF, subzonal insemination, embryonic development, rabbit 94
sperm motility, acrosome reaction, sperm intracellular calcium, progesterone 471

Polar body analysis
chromosomal disorders, preimplantation diagnosis, trisomy 181
preconception diagnosis, trisomy 1208

Polycystic ovary syndrome
adrenocorticotrophin hormone, opioid antagonist, insulin, androgens, steroidogenesis 2242
amenorrhoea, hyperandrogenaemia, ovarian wedge resection, LH pulsatile secretion 1022
follicular development, GnRH agonist, IVF–ET 1596
hyperinsulinaemia, insulin receptor gene, tyrosine kinase domain 1681
laparoscopy, argon laser, vaporization/perforation 1038
LHRH antagonists, IVF–ET, GIFT, endometriosis, uterine fibrosis 767
ovarian hyperstimulation syndrome, hyperandrogenaemia, laparoscopic cautery of the ovarian surface 2342
ovarian hyperstimulation syndrome, multifetal pregnancy reduction 1190
ovulation, FSH, low-dose step-up treatment 1612
ovulation induction, cumulative conception rates 1563
ovulation induction, recombinant FSH, pregnancy, birth 55
recurrent miscarriage 1328
transvaginal ultrasound, endocrinology, histopathology 1231
treatment, GnRH agonist, decapeptyl 1048
treatment, laparoscopy, premature ovarian failure 573
ultrasonography, histopathological changes, androstenedione, LH:FSH

ratio 2255
Yoruba African/Caucasian Women, ovarian hyperstimulation syndrome 1077
Polymerase chain reaction
dopamine D_2 receptor, anovulation, female Hispanics 1271
FISH, cell recycling, sex determination, β-haemoglobin gene sequence, preimplantation diagnosis 2150
FISH, sex determination, preimplantation diagnosis, mouse 2145
genetic evaluation, prenatal diagnosis, trophoblasts, maternal blood 1184
preimplantation diagnosis, cystic fibrosis 1676
preimplantation diagnosis, non blastomeric DNA contamination 1539
preimplantation diagnosis, sex determination, blastomeres, X and Y chromosome detection 716
RNA fingerprinting, sperm gene expression, male infertility 864
testicular gene amplification, human butyrylcholinesterase cDNA, transgenic mice 284
Post-coital test
Tru-Trax, cervical mucus, spermatozoa, in-vitro penetration 2027
Post-menopausal pregnancy
maternal age, ethics 187
oocyte donation, attitudes/ethics 571
oocyte donation, community attitudes 167
Post-menopausal women
cancer, breast, LHRH, agonists and antagonists 1364
FSH, LHRH, LH, GnSAF 241
LH, FSH, secretion control mechanism 1807
oocyte donation, aneuploidy 1199
Posthumous reproduction
assisted reproductive techniques, donor insemination, legislation, ethics 2182
Potassium chloride
ectopic pregnancy, management techniques, surgical treatment 547
Pre-eclampsia
oocyte donation, histocompatibility, HLA antigens 2444
uterine artery, angiotensin II, atrial natriuretic peptide 1939
Pre-pubertal children
LH, FSH, secretion control mechanism 1807
Prednisolone
low-dose cyclic treatment, sperm-bound antibody levels, flow cytometry 889
testicular obstruction, oligozoospermia, antisperm antibodies, orchidectomy 463
Pregnancy
anticardiolipin antibodies, β_2-glycoprotein I, pregnancy outcome 1849
bladder endometriosis, laparoscopic partial cystectomy, case report 730
complicated early pregnancy evaluation, uterine artery, colour Doppler 2432
dizygotic triplet pregnancy, IVF, case report 1362
early pregnancy, GnRH agonist, inadvertent administration, outcome 1243
ectopic pregnancy, diagnosis, progesterone, HCG 157
ectopic pregnancy, HCG, predictive value, IVF–ET, spontaneous conception 1550
ectopic pregnancy, implantation sites, tubal surgery 90
ectopic pregnancy, incidence, seasonal variation, French register 742
ectopic pregnancy, laparoscopy, trophoblastic implants, β-HCG, methotrexate 92
ectopic pregnancy, management techniques, surgical treatment 547
ectopic pregnancy, salpingectomy, laparoscopy, pregnancy rates 83
ectopic pregnancy, subsequent reproductive prognosis 1333
ectopic pregnancy, trophoblastic activity, prostaglandin $F_{2\alpha}$, HCG, progesterone, embryos 1170
embryo transfer, oestrogen, luteal phase, rhesus monkey 629
first trimester, amino acids, amniotic fluid, coelomic fluid 1175
first trimester, decidua, lymphocytes, granulocyte–macrophage colony stimulating factor 1660
first trimester, decidua, lymphocytes, transforming growth factor β-$_2$ 2270
first trimester, placental protein 14, GnRH agonist, normal cycles 2429
first trimester, protein concentrations, amniotic fluid, coelomic fluid, yolk sac volume 161
first trimester, relaxin, maternal serum, coelomic fluid, amniotic fluid 1561
gonadotrophin concentrations, placenta, steroidogenesis 41
intracytoplasmic sperm injection, retrograde ejaculation 1293
intramural pregnancy, IVF–ET, case report 2427
melatonin, secretion, gonadotrophins, contraceptives 49
monoamniotic pregnancy, bioamniotic twinning, IVF, case report 374
multifetal pregnancy reduction, ovarian hyperstimulation syndrome, polycystic ovary syndrome 1190
multifetal reduction, counselling, ethics 1978
oocyte donation, pregnancy outcome/high risk, ovarian failure, complications 538
ovulation induction, recombinant FSH, polycystic ovary syndrome 55
placenta, retinoids, HCG, vitamin A 1166
post-menopausal pregnancy, oocyte donation, attitudes/ethics 571
pregnancy rates, proximal tubal occlusion, wire guide cannulation 1109
primary ovarian pregnancy, laparoscopy, laser surgery 1337
prognostic variables, semen analysis, male infertility 1102
smoking, maternal serum, placental xenobiotic enzymes 1017
uterine endocrinology, endometrium, placental protein 14, IGFBP-1 917
Pregnant mare's serum gonadotrophin
anterior pituitary hormones, oocyte maturation *in vitro*, antral follicle development, macaques 2130
follicular development, RU 486, rat 24
Preimplantation
preimplantation development, blastocyst, fibronectin, inner cell mass, mouse 894
preimplantation development, diabetes mellitus, hyperketonaemia, mouse 113
preimplantation diagnosis, polar body analysis, chromosomal disorders, trisomy 181
preimplantation embryos, chromosome evaluation, aneuploidy, IVF 709
preimplantation embryos, freezing–thawing, metabolic functions, mouse 122
preimplantation embryos, sexual differentiation, growth rates 1730
preimplantation embryos (grade IV), chromosomal abnormalities, IVF 293
Preimplantation diagnosis
blastocentesis, psychological evaluation, acceptability, β-thalassaemia 360
cell recycling, polymerase chain reaction, FISH 2150
cystic fibrosis, polymerase chain reaction 1676
fluorescence in-situ hybridization, interphase nuclei preparation, Tween 20, mouse 533
polar body analysis, trisomy, preconception diagnosis 1208
polymerase chain reaction, FISH, haemophilia, Duchenne's muscular dystrophy, Barth's syndrome, cystic fibrosis Rett's syndrome
polymerase chain reaction, non blastomeric DNA contamination 1539
sex determination, blastomeres, X and Y chromosome detection, polymerase chain reaction 716
sex determination, fluorescent in-situ hybridization, modified spreading method, directly labelled probes 721
sex determination, polymerase chain reaction, FISH, mouse 2145
sex preselection, haemophilia, twinning, case report 2156
single-cell biopsy, histology of offspring, mouse 1146
Premature ovarian failure
thyroid disease, autoimmune disorders, HLA antigens 2006
Premenstrual tension
treatment, GnRH agonist, Zoladex, ovarian suppression 1058
Prenatal diagnosis
fragile X syndrome, FMR-1 gene methylation 1471
trophoblasts, maternal blood, genetic evaluation, polymerase chain reaction 1184
ultrasonography, 3D ultrasound, evaluation of technique 1773
Primary ovarian pregnancy
laparoscopy, laser surgery 1337
Prion disease
bovine spongiform encephalopathy, Creutzfeld–Jakob disease, vertical transfer, debate 1792
Progesterone
acrosome reaction, induction, sperm acrosome antigen-1, A23187 1897
capacitation, acrosome reaction, pentoxifylline 2103
early follicular phase, IVF, GnRH agonist, flare-up effect 235
ectopic pregnancy, diagnosis, HCG 157
ectopic pregnancy, trophoblastic activity, prostaglandin $F_{2\alpha}$, HCG 1170
exogenous progesterone, peritoneal fluid, sperm motility *in vitro* 303
follicular fluid, somatostatin, follicular maturation, IVF 1448
ovulation induction, pure urinary LH, HCG, oestradiol, rabbit 413
progesterone supplementation, retarded endometrium, treatment comparison, artificial cycle 409
receptor-associated proteins, RU 486, RU 38486, contraception 437
retinoic acid receptors, retinoid X receptors, endometrium 229
RU 486, follicular development, ovulation, rat 24
saliva progesterone, unexplained infertility, retarded endometrium,

placental protein 14 394
sperm motility, acrosome reaction, platelet activating factor 471
sperm motility, sperm–zona interactions, acrosome reaction, male infertility 1322
sperm pre-treatments, acrosome reaction, subzonal insemination, follicular fluid 110
spermatozoa, capacitation, acrosome reaction, hyperactivation 2318
Progesterone receptor
endometriosis, different sites, immunohistochemistry 1752
endometrium, ovulation induction, GIFT, IVF 2405
Fallopian tube, uterus, menstrual cycle, menopause, immunohistochemistry 1027
lymphocytes, recurrent abortion, prognosis 1546
oestrogen receptor, androgen receptor, ovary, menstrual cycle, steroidogenesis 1589
spermatozoa, intracellular calcium 760
Progestin
decidualization, decidual secretory proteins, stromal cells, ultrastructure 259
male contraceptive methods, androgens, LHRH analogues 586
uterine fibroids (leiomyomata), add-back therapy, oestrogen, cholesterol (HDL), bone density 1618
Prolactin
endometrium, decidualization *in vitro*, tumour necrosis factor α, interleukins 2411
serum, follicular fluid, GnRH agonist, IVF 1803
Prolactin response
body weight, metoclopramide, thyrotrophin-releasing hormone, secondary amenorrhoea 800
Pronucleus formation
IVF, germinal vesicle stage, cortical granule reaction, developmental potential 697
oocytes, time-course, intracytoplasmic sperm injection 1743
Propanediol
cryopreservation, oocytes, fertilization rates, karyotype evaluation 684
Prostaglandin $F_{2\alpha}$
granulosa–lutein cells, IGFBP-3, follicular fluid 1643
trophoblastic activity, ectopic pregnancy, HCG, progesterone 1170
uterine fluid, implantation, RU 486, naproxen 1626
Prostaglandins
ectopic pregnancy, management techniques, surgical treatment 547
PGE_2, $PGF_{2\alpha}$, IL-1β, follicular fluid 9
Prostanoids
umbilical artery, endothelium-dependent relaxation, substance P, indomethacin 733
Prostasomes
swim-up medium, enhanced motile sperm recruitment, IVF 1485
Protamines
spermatozoa, nuclear condensation, transition protein 1, male infertility 2313
Protectaid™
vaginal sponge, cholic acid, spermicides, sperm ultrastructure 1999
Psychological evaluation
donor insemination, emotional adjustment of couples, outcome 176
donor insemination, male/female comparison, personality characteristics 172
IVF, children, mothers 1097
oocyte donation 1344
preimplantation diagnosis, blastocentesis, acceptability, β-thalassaemia 360
Puromycin
intracytoplasmic sperm injection, oocytes, spermatozoa, cytological analysis 2139
Pyruvate
pyruvate uptake, embryo morphology, natural cycle IVF, implantation 2362

Radionuclide hysterosalpingography
endometriosis, female infertility 1192
Reactive oxygen species
ascorbic acid, IVF, embryo development 1717
lipoperoxidation, sperm membrane, dyspermia, glutathione 2044
Relaxin
decidualization, decidual secretory proteins, stromal cells, ultrastructure 259
follicles, growth rates *in vitro*, FSH, cyclic AMP, hypoxanthine, mouse 1003
maternal serum, coelomic fluid, amniotic fluid, first trimester 1561
sperm motility stimulants 192
Reproductive health
Eastern Europe, Szeged Declaration, research and service needs 750
Resazurin test
semen, sperm parameters, ATP, male infertility 1688
Resistant ovary syndrome
blepharophimosis, familial cases, case report 2034
Retinoic acid receptors
retinoid binding proteins, endometrium, epithelial cells 1410
retinoid X receptors, endometrium, oestrogen, progesterone 229
Retinoid binding proteins
retinoic acid receptors, endometrium, epithelial cells 1410
Retinoids
gestational effects, HCG, vitamin A 1166
Retrograde ejaculation
azoospermia, male infertility 381
intracytoplasmic sperm injection, pregnancy 1293
Rett's syndrome
preimplantation diagnosis, polymerase chain reaction, FISH 912
RNA fingerprinting
sperm gene expression, male infertility, polymerase chain reaction 864
RU 486
endometrial maturation, implantation phase 2398
follicular development, ovulation, progesterone, rat 24
naproxen, uterine fluid, prostaglandin $F_{2\alpha}$, implantation 1626
RU 38486, steroid antagonists, progesterone, contraception 437

Salpingectomy
bilateral salpingectomy, ovarian stimulation, case–control study, IVF–ET 624
bilateral total salpingectomy, IVF–ET, heterotopic pregnancy, case report 1966
laparoscopy, pregnancy rates, ectopic pregnancy 83
Salpingoscopy
ampulla, falloposcopy, assessment methods 1516
Salpingostomy
laparoscopy, tuboplasty, pregnancy rates 334
Scrotal temperature
epididymis, sperm maturation/storage/transport 2187
Seasonal variation
ectopic pregnancy, conception 1968
implantation rates, IVF–ET 2164
IVF–ET, success rates 2300
Semen
coagulum protein purification 320
donor insemination, UK legislation, recruitment, supply, screening 882
leukocytospermia, cytokines, recurrent spontaneous abortion 1180
liquefaction, proteinase inhibitors, Fusan, t-amino caproic acid 664
resazurin test, ATP, sperm parameters, male infertility 1688
semen analysis, idiopathic male infertility, kallikrein, treatment trial 325
semen analysis, male infertility, pregnancy, prognostic variables 1102
semen parameters, pregnancy prediction, male infertility 1887
sperm precursors, leukocytes, male infertility 1701
sperm-bound antibody levels, prednisolone, low-dose cyclic treatment, flow cytometry 889
Semen analysis
computer-assisted sperm analysis, Hamilton–Thorn motility analyser, prospective study, pregnancy rates 2324
Sertoli cells
testes, germ cells, paracrine control, lactate, 17β-oestradiol, transferrin inhibin
Serum
prolactin, gonadotrophins, steroid hormones, GnRH agonist, IVF 1803
Sex determination
cell recycling, polymerase chain reaction, FISH, β-haemoglobin gene sequence, preimplantation diagnosis 2150
preimplantation diagnosis, blastomeres, X and Y chromosome detection, polymerase chain reaction 716
preimplantation diagnosis, FISH, polymerase chain reaction, mouse 2145
preimplantation diagnosis, fluorescent in-situ hybridization, modified spreading method, directly labelled probes 721
Sex preselection
albumin columns, spermatozoa, DNA probes 1787
gender distribution, ethics 569
preimplantation diagnosis, FISH, haemophilia, twinning, case report 2156
sperm preparation, Percoll, FISH 1265

spermatozoa, flow cytometry, UV light, DNA binding agent, safety 757, 758
Sexual abstinence
acrosome reaction, ARIC test, assay reproducibility 2079
Sexual differentiation
preimplantation embryos, growth rates 1730
Sialic-acid binding protein
sperm-binding lectin, purification, characterization, endometrium 1497
Side-effects
uterine fibroids, steroid 'add-back' paradigms, GnRH agonist, therapeutic uses, side-effects 1380
Smoking
cigarettes, maternal serum, placental xenobiotic enzymes 1017
Somatostatin
follicular fluid, follicular maturation, progesterone, IVF 1448
Sperm acrosome antigen-1
acrosome reaction, induction, progesterone, A23187 1897
Sperm ultrastructure
spermatozoa, spermicides, cholic acid, vaginal sponge, Protectaid™ 1999
Spermatids
intracytoplasmic injection of spermatozoa, micromanipulation techniques 2217
Spermatozoa
acrosome reaction, characterization, frequency distribution 1875
acrosome reaction, FITC-PNA, pentoxifylline, follicular fluid 77
acrosome reaction, iron concentration, peritoneal fluid, endometriosis, infertility 1153
acrosome reaction, pentoxifylline, CD46 antibody, Percoll 71
acrosome reaction, progesterone, sperm acrosome antigen-1 1897
acrosome reaction, sperm–oocyte fusion, sperm motility 1867
acrosome reaction, sperm morphology, zona-free oocytes, oolemma binding 673
acrosome reaction, sperm pre-treatments, progesterone, follicular fluid, subzonal insemination 110
acrosome reaction, subzonal insemination, platelet activating factor, rabbit 94
antisperm antibodies, chymotrypsin/galactose treatment, intra-uterine insemination, pregnancy rates 484
antisperm antibodies, immunobead test, auto-controlled study, IVF 1119
antisperm antibodies, IVF, ovarian stimulation, low responders 643
asthenozoospermia, acrosome reaction, pentoxifylline, 2-deoxyadenosine 2038
asthenozoospermia, adenosine, dynein ATPase kinetics, sperm motility 1474
asthenozoospermia, co-culture, Vero cells 1276
asthenozoospermia, soluble IL-2 receptors, low sperm motility 653
azoospermia, retrograde ejaculation, male infertility 381
azoospermia, vas deferens, sperm retrieval, intra-uterine insemination, live birth 875
capacitation, acrosome reaction, pentoxifylline, progesterone, hyperactivation 2318
capacitation, acrosome reaction, pentoxifylline, progesterone 2103
capacitation, sperm transport, acrosome reaction, contraception 842
cervical mucus, in-vitro penetration, Tru-Trax, post-coital test 2027
chisterin, monoclonal antibody staining, acrosome reaction, sperm morphology 1490
Chlamydia trachomatis, ultrastructure, electron microscopy 754
cytosolic sperm factor, oocytes, intracellular oscillations, membrane hyperpolarizations 2356
diagnostic andrology, assisted reproductive techniques 1209
dyspermia, glutathione, lipoperoxidation, reactive oxygen species, sperm membrane 2044
gamete immunology, infertility, contraceptive vaccines 828
hyperactivation, pentoxifylline, donor insemination, pregnancy rates 1684
intracytoplasmic sperm injection, failed SUZ1, fertilization/pregnancy rates 501
intracytoplasmic sperm injection, oocyte activation, intracellular free calcium, confocal lower scanning microscopy 511
ionophore challenge, acrosome reaction, ARIC test, assay reproducibility 2079
IVF, prostasomes, swim-up medium, enhanced motile sperm recruitment 1485
IVF, sperm penetration, cortical granule reaction, germinal vesicle stage 697
male factor infertility, pentoxifylline, treatment efficacy 996
nuclear condensation, protamines, transition protein 1, male infertility 2313
oocytes, intracytoplasmic sperm injection, cytological analysis, puromycin 2139
oocytes, oviductal exposure, morphology, sperm penetration 519
oviductal cell coincubation, sperm motility, computer-assisted sperm analysis 656
pentoxifylline, IVF, embryonic development, parthenogenesis 1903
platelet activating factor, sperm motility, acrosome reaction, sperm intracellular calcium, progesterone 471
selection, subzonal insemination, acrosome reaction, fertilization rates 128
sex preselection, albumin columns, DNA probes 1787
sex preselection, FISH, Percoll 1265
sex preselection, flow cytometry, UV light, DNA binding agent, safety 757, 758
sperm–oocyte interaction, membrane cofactor protein, CD46, IVF 907
sperm–zona binding/penetration tests, IVF failure 489
sperm–zona interaction, fucose-containing epitope, Lewis blood groups, human, pig, cow 1532
sperm chromosome complements, reciprocal translocation 1512
sperm gene expression, RNA fingerprinting, male infertility 864
sperm hyperactivation, computer-assisted sperm analysis 456
sperm maturation/storage/transport, scrotal temperature, epididymis 2187
sperm morphology, acrosome reaction, subzonal insemination, fertilization 1281
sperm motility, acrosome reaction, male infertility, pregnancy prediction 1887
sperm motility, computer-assisted semen analysis, Hamilton–Thorn 310
sperm motility, sperm–zona interactions, acrosome reaction, progesterone 1322
sperm motility, vagina, ultrasound transmission gel 482
sperm motility, zona pellucida binding capacity, teratozoospermia, pentoxifylline 477
sperm motility *in vitro*, peritoneal fluid, exogenous progesterone 303
sperm motility parameters, peritoneal fluid, endometriosis 2418
sperm motility stimulants, caffeine, pentoxifylline, theophylline, relaxin, 2-deoxyadenosine kallikrein
sperm motion stimulation, follicular fluid, peptide, characterization 1505
sperm parameters, resazurin test, ATP 1688
sperm penetration assay, histocompatibility linked antigens, gene sequences 279
sperm precursors, leukocytes, male infertility 1701
sperm preparation, intracytoplasmic sperm injection 1127
sperm preparation, pentoxifylline, oocytes, embryos, mouse 556
sperm tail, fibrous sheath antigens, monoclonal antibodies 1836
sperm tail fibrous sheath, antigenic epitope, type VII collagen, post-translational modification 1452
sperm tail fibrous sheath, non-glycosylated antigens, immunogold electron microscopy, Western blotting 1459
sperm ultramorphology, male fertility, diagnosis 2069
sperm-binding lectin, sialic-acid binding protein, purification, characterization, endometrium 1497
sperm-bound antibody levels, prednisolone, low-dose cyclic treatment, flow cytometry 889
steroid receptors, progesterone receptors, intracellular calcium 760
teratozoospermatozoa, IVF–ET, fertilization rates, pregnancy rates/outcome 870
teratozoospermia, IVF, prognosis, randomized prospective study 1479
zona pellucida, sperm–zona interaction, acrosome reaction, IVF 1694
Spermicides
sperm ultrastructure, cholic acid, vaginal sponge, Protectaid™ 1999
Spongiform encephalopathies
prion disease, vertical transfer, debate 1792
Statistical models
IVF–ET, prognosis 448
Steroid 'add-back' paradigms
GnRH agonist, therapeutic uses, side-effects 1380
Steroid receptors
endometrium, ovulation induction, GIFT, IVF 2405
endometrium, spontaneous cycles, ovulation induction 200
progesterone receptors, intracellular calcium, spermatozoa 760
Steroidogenesis
androgens, adrenocorticotrophin hormone, opioid antagonist, insulin, polycystic ovary syndrome 2242
corpus luteum, luteal phase, HCG 591
granulosa–luteal cells, follicular fluid, vasoactive intestinal polypeptide, peptide histidine methionine 1053
granulosa cells, transforming growth factor β1, autocrine/paracrine function, cAMP, pig 2118

oestradiol, control of secretion, granulosa–lutein cells, FSH, IGF-I 19
ovarian steroids, LH, hypersecretion, recurrent abortion 179
ovary, gonadotrophins, follicular growth, ovulation 815
ovary, menstrual cycle, immunohistochemistry 1589
ovary, pure urinary FSH (Metrodin), oestradiol, multicentre phase III study 424
placenta, gonadotrophin concentrations, corpus luteum 41
pre-antral follicle development, glycolysis, gonadotrophins, mouse 617
testosterone, oestradiol, LH pulsatility, male infertility 781

Steroids
serum, follicular fluid, GnRH agonist, IVF 1803
steroid antagonists, RU 486, RU 38486, progesterone, receptor-associated proteins, contraception 437

Substance P
umbilical artery, endothelium-dependent relaxation, prostanoids, indomethacin 733

Subzonal insemination
acrosome reaction, sperm morphology, fertilization 1281
children, follow up, congenital malformations 1765
failed IVF, reinsemination, fertilization rates 669
failed SUZ1, intracytoplasmic sperm injection, fertilization/pregnancy rates 501
IVF failure, severe male factor infertility, intracytoplasmic sperm injection, success rates 680
partial zona dissection, Er:YAG laser 1723
sperm pre-treatments, progesterone, follicular fluid, acrosome reaction 110
spermatozoa, selection, acrosome reaction, fertilization rates 128
unexplained infertility, zona pellucida, sperm penetration defect 2335

Superovulation
timed intercourse, assisted conception, pregnancy rates 67

Szeged Declaration
Eastern Europe, reproductive health, research and service needs 750

T-amino caproic acid
Fusan, semen, liquefaction, proteinase inhibitors 664

Tamoxifen
breast cancer, ovarian cysts, oestrogen, GnRH agonist 1427

TCA cycle
pre-antral follicles, glycolysis, malonate 604

Teratozoospermia
IVF, prognosis, randomized prospective study 1479
sperm motility, zona pellucida binding capacity, pentoxifylline 477

Testes
male contraception, physiological bases, epididymis 1081
Sertoli cells, germ cells, paracrine control, lactate, 17β-oestradiol, transferrin inhibin
texture, volume, ultrasonography, male infertility 878

Testicular gene amplification
human butyrylcholinesterase cDNA, polymerase chain reaction, transgenic mice 284

Testicular obstruction
unilateral obstruction, oligozoospermia, antisperm antibodies, orchidectomy, prednisolone 463

Testosterone
hypertestosteronaemia, pre-menopausal women, obesity, coronary heart disease 610
LH pulsatility, oestradiol, male infertility 781

β-thalassaemia
IVF–ET, twin pregnancy, case report 1964
preimplantation diagnosis, blastocentesis, psychological evaluation, acceptability 360

β-thalassaemia major
oocyte donation, IVF–ET 1143

Theophylline
sperm motility stimulants 192

Thyroid disease
autoimmune disorders, HLA antigens, premature ovarian failure 2006

Thyrotrophin-releasing hormone
prolactin response, body weight, metoclopramide, secondary amenorrhoea 800

Timed intercourse
ovarian stimulation, male infertility, intra-uterine insemination, pregnancy rates 2022

Transferrin
testes, Sertoli cells, germ cells, paracrine control 2062

Transforming growth factor
cytokines, endometrium 936

Transforming growth factor β_2
lymphocytes, decidua, first trimester 2270

Transforming growth factor β1
granulosa cells, autocrine/paracrine function, steroidogenesis, cAMP, pig 2118

Transition protein 1
spermatozoa, nuclear condensation, protamines, male infertility 2313

Triptorelin
follicle cyst formation 1983

Trisomy
preconception diagnosis, polar body analysis 1208

Trophoblast
gestational trophoblastic disease, IVF–ET, methotrexate, EMACO treatment 2010
maternal blood, genetic evaluation, prenatal diagnosis, polymerase chain reaction 1184
parathyroid hormone related protein, cellular expression, immunohistochemistry 149

Tru-Trax
post-coital test, cervical mucus, spermatozoa, in-vitro penetration 2027

Tubal embryo transfer
β-thalassaemia, twin pregnancy, case report 1964

Tumour necrosis factor α
cervical ripening, guinea-pigs, interleukins 2173
endometrium, decidualization *in vitro*, prolactin, interleukins 2411

Turner's syndrome
oocyte donation, first trimester, CA 125, radioimmunoassay 147

Tween 20
interphase nuclei preparation, preimplantation diagnosis, fluorescence in-situ hybridization, mouse 533

Twins
bioamniotic twinning, monoamniotic pregnancy, IVF, case report 374
hydatidiform mole, coexistent fetus, IVF–ET 1770
monozygotic twinning, zona pellucida architecture, IVF–ET cases 1318
sex preselection, FISH, haemophilia, preimplantation diagnosis, case report 2156

Tyrosine kinase domain
insulin receptor gene, polycystic ovary syndrome, hyperinsulinaemia 1681

Ultrasonography
3D ultrasound, evaluation of technique, prenatal diagnosis 1773
colour Doppler, complicated early pregnancy evaluation, uterine artery 2432
early embryonic heart rate 2424
endometrial movements, cervical mucus 1013
histopathological changes, polycystic ovary syndrome, androstenedione, LH:FSH ratio 2255
magnetic resonance imaging, uterine receptivity, IVF–ET, outcome prediction 2438
ovarian synchrony factor, follicular rupture prognosis 1250
ovulation induction, ultrasound-only monitoring, IVF–ET 1631
testes, texture, volume, male infertility 878
transvaginal ultrasound, crown-rump length, pregnancy outcome, abortus karyotype 366
transvaginal ultrasound, donor insemination, timing, urinary LH 1859
transvaginal ultrasound, endometrial thickness, pregnancy outcome, oocyte donation 363
transvaginal ultrasound, polycystic ovary syndrome, endocrinology, histopathology 1231
transvaginal ultrasound, unicornuate uterus, laparoscopy, GnRH agonist 1297
ultrasound transmission gel, vagina, sperm motility 482

Umbilical artery
substance P, endothelium-dependent relaxation, prostanoids, indomethacin 733

Uterine artery
atrial natriuretic peptide, angiotensin II, pre-eclampsia 1939
complicated early pregnancy evaluation, colour Doppler 2432

Uterine perfusion
frozen embryo replacement, low-dose aspirin, hormone replacement therapy 1954

Utero-cervical inhibitory reflex
clinical significance, labour, menstruation 2220

Uterus
endometrium, implantation, contraception, interception 985
oestrogen receptor, progesterone receptor, menstrual cycle, menopause, immunohistochemistry 1027

unicornuate uterus, female infertility, ovulation induction, case reports 2311
unicornuate uterus, transvaginal ultrasound, laparoscopy 1297
uterine artery, relaxation, nitric oxide, acetylcholine 387
uterine fibroids, insulin-like growth factors, IGF binding proteins, LHRH agonist 214
uterine fibroids (leiomyomata), add-back therapy, GnRH agonist, cholesterol (HDL), bone density 1618
uterine fibrosis, LHRH antagonists, polycystic ovary syndrome, endometriosis 767
uterine fluid, prostaglandin $F_{2\alpha}$, RU 486, naproxen 1626
uterine receptivity, IVF–ET, outcome prediction, magnetic resonance imaging, ultrasonography 2438
uterine septa, hysteroscopy, metroplasty 87
uterine septum resection, two case reports, recurrent abortion 1519

Vagina
ultrasound transmission gel, sperm motility 482
Vaginal sponge
Protectaid™, cholic acid, sperm ultrastructure 1999
Varicocele
subclinical, review, treatment, infertility 1
Vas deferens
azoospermia, sperm retrieval, intra-uterine insemination, live birth 875
congenital absence, epididymal sperm aspiration, cystic fibrosis, IVF 1710
congenital absence, intracytoplasmic sperm injection, IVF 1705
congenital bilateral absence, diagnostic andrology 1214
Vascular architecture
oviduct, human fetus, corrosion casting, scanning electron microscopy 1958
Vascular endothelial growth factor
cytokines, endometrium 936
Vasectomy
epididymal sperm aspiration, cystic fibrosis, IVF 1710
Vasoactive intestinal polypeptide
follicular fluid, granulosa–luteal cells, DNA synthesis, steroidogenesis 1053
Vero cells
co-culture, asthenozoospermia, computer-assisted sperm analysis 1276
co-culture, blastocysts, IVF–ET, indications for embryo transfer, pregnancy rates 2367
co-culture, bovine embryos 1927
IVF, co-culture, blastocysts, pregnancy rates 1131
Vitamin A
retinoids, gestational effects, placenta, HCG 1166
Vitex agnus castus
herbal medicine, multiple follicular development, IVF 1469

Weight-related amenorrhoea
ovulation induction, cumulative conception rates 1563
Wire guide cannulation
proximal tubal occlusion, pregnancy rates 1109

ZK 98,734
abortion, efficacy, RU 486 57
Zoladex
GnRH agonist, ovarian suppression, premenstrual tension, treatment 1058
Zona pellucida
anti-zona-pellucida antibodies, follicular fluid, IVF, fertilization failure 1827
anti-zona pellucida antibodies, IVF, ovarian stimulation, low responders 643
gamete immunology, infertility, contraceptive vaccines 828
photoablation, Er:YAG laser, fertilization rates, live births 1891
sperm–zona binding/penetration tests, IVF failure 489
sperm–zona interaction, acrosome reaction, IVF 1694
sperm–zona interaction, fucose-containing epitope, Lewis blood groups, human, pig, cow 1532
sperm–zona interaction, ultrastructure, scanning electron microscopy 2135
sperm penetration defect, subzonal insemination, unexplained infertility 2335
subzonal insemination, partial zona dissection, Er:YAG laser 1723
zona drilling, embryos, assisted hatching 1528
zona-free oocytes, oolemma binding, acrosome reaction, sperm morphology 673
zona opening, macro/micromanipulation, sperm penetration, oocytes, hamster 137
zona pellucida architecture, monozygotic twinning, IVF–ET cases 1318
zona pellucida binding capacity, sperm motility, teratozoospermia, pentoxifylline 477
